

Varsity Football Schedule is Announced

Cloudbusters Will Play 9 Games; Lt. Comdr. Killinger Head Coach

A nine game schedule, which includes the finest college and service teams in the South, faces the Cloudbuster football eleven for the coming fall.

As announced by Lieut. Comdr. Burton Ingwersen, Athletic Director, the season will open on September 24th when the Cherry Point Marines come to Chapel Hill, and will close against Camp Davis on November 18th in Kenan Stadium.

Only four of the seven teams played last year will oppose the Cloudbusters this fall. They are the U. S. Naval Academy, Duke, Camp Davis, and the Georgia Pre-Flight.

Wake Forest, Camp Lejeune and N. C. State, all on last year's schedule, will not be met. New-comers include the University of Virginia, Jacksonville Naval Air Station, Bainbridge Training Station, and the aforementioned Cherry Point Marines. Two games are scheduled with the Georgia Pre-Flight School, the first being scheduled for Chapel Hill on Oct. 21, and the second there on Nov. 11th.

Head coach of the Cloudbuster football team, succeeding Lieut. Frank Kimbrough, will be Lieut. Comdr. Glenn Killinger.

A football, baseball and basketball star while at Penn State in 1917-1921, Coach Killinger later played professional football with the New York Giants and Philadelphia Quakers, and baseball with the New York Yankees. He was also head coach of the Cloudbuster baseball team which won the Ration League pennant in baseball.

About the only thing certain concerning the personnel of the team is the quantity of the material. Little is known, at this writing, concerning the quality, and no information will be available before the latter part of August. The opening practice session is scheduled for August 8.

Last year the Cloudbusters won

French Cadets To Hear Dr. Nouy

"Two Years in Paris Under the Hitler Rule" will be the subject which Dr. Lecomte du Nouy, an officer in the French Army in World War I, will discuss with the French Cadets here next Tuesday afternoon at 1700.

Sponsored jointly by the USO-YMCA, Dr. Nouy's visit should be of special interest. He is a well known author of books and papers on philosophy of sciences, and served at one time as Director of the Research Department of the Faculty of Sciences at the University of Paris. Also, he was connected for eight years with the Rockefeller Institute of New York City and for ten years with the Pasteur Institute in Paris.

Cadets Invited to Dance

All members of the cadet regiment are invited to attend the dance being sponsored by the University's Order of the Grail honor society on Saturday, August 5, in Woollen gymnasium. Tickets admitting stag or couple, will be on sale in the Welfare Office, Room 112 Alexander Hall, all next week at 60c each. Admission at the door will be 90c. The dance will start at 2100.

two games, lost four and tied one. Two years ago, with Lieut. Comdr. See FOOTBALL, page 4

Opportunities Good For Enlisted Men To Become Officers

For many of those leaving pilot training because of the curtailed program, there are still good opportunities for reaching the commissioned rank, according to a report issued recently by the Navy Department.

Opportunities for enlisted men in the Navy to become officers have been steadily increasing since the beginning of World War II, and are now more numerous than during any period in the history of the service.

During the period from Dec. 7, 1941, to May 1 of this year, 45,402 men and 535 women had been appointed to warrant and commissioned ranks from enlisted status.

Most significant is the trend which shows that the Navy is now relying more and more upon its enlisted sources for able personnel needed for appointment to posts of leadership.

During 1942 enlisted men appointed to warrant and commissioned ranks accounted for approximately 16% (15,625) of all officer appointments. The figure increased to 21.6% (20,380) in 1943, and during the first four months of 1944 those commis- See OFFICERS, page 4

Sun., July 30—Free movie at Village Theatre, "The Sullivans" with Ann Baxter and Thomas Mitchell. Feature starts at 1310 and 1508. Complete show one hour, 59 minutes.

Cruising with Covey

By

DAVID Y. COVERSTON, Y1c, USNR

"Scuttlebutt," according to Noah Webster, is defined: "Formerly, on shipboard, a cask or butt used to keep the daily drinking water; and later, the drinking fountain on the ship."

More commonly used, "Scuttlebutt" is the Naval relative of the small town gossip, and the news world rumor, meaning the unfounded word that is passed around from person to person aboard ship or other Naval activity.

This station, as all others, has great epidemics of "Scuttlebutt" and at times they are really funny. Back in 1942, even before the station went into commission, scuttlebutt had it that 7,500 cadets were to be trained here at one time, all of them getting elementary flying at the local airport.

Later, around the middle of 1943, scuttlebutt had it that WAVES would take over the station en masse, and as you know, we only have about a dozen today, July of 1944.

It has always been one of the customs of the Navy, I understand, to sit around between working hours and "shoot the breeze," and from these gatherings comes the choicest scuttlebutt. Someone, no one in particular, comes in and makes a statement. This can consist of anything from change of duty to the locality to which the ship is going. The originator always says he has it from a strictly confidential but absolutely reliable
