A THANKSGIVING PRAYER

Supreme Architect of the Universe, we thank Thee for the Declaration of Independence, the Constitution of the United States, the Bill of Rights assuring us freedom of religion, speech and press. We thank Thee for the privilege of being citizens of these United States of America.

Let us not boast of victory, but rejoice in peace and good will toward all men. Deliver us from scheming politicians conniving to usurp the power of the world, of government and of labor. Deliver us from stupid nationalism, from selfishness, greed and intolerance. Let us remember the sermon on the mount and grant us Faith, Hope and Love. Amen.

FLIGHT DEPARTMENT NEWS

Mr. Schlosburg is spending the Thanksgiving holiday at home with his family. We do hope the cold he had when he left does not develop to the extent that it will mar his visit. P.S. He's a little overdue. Could there be a reason?

Mr. Groat made a trip to Tri-City Airport in Bristol, Tennessee and Charlotte, N. C. on Tuesday. He was favorably impressed with the hospitality of Tri-City. He reports, "I was impressed by the service and pleasant attitude presented by the Appalachian Flying Service that is operating the Tri-City Airport. Even though there was only one line man on duty, he seemed to be right on the ball cleaning windshields, servicing and parking all transient aircraft the instant they landed and taxiing them to the hangar."

J. F. Groat

Hangar boys, can't we give the same service?

Red Willard would not fly with a certain young lady this week after he learned she was changing from skirts to slacks.

We hear that the Pilot and the Lone Eagle are warming the bench for the Corsair Ball Team. George says the work is too heavy for the price they pay.

The \$64.00 question-"Who owns the "Old Yellow Hen"?"

We hear one of our young ladies is falling for CAA Inspectors.

PERSONALS

Mr. Davis returned Thursday from Oklahoma where he spent a week as delegate to the Aviation Clinic.

We are glad to have Bob Northington back with us. Take care of yourself Bob, this weather is tricky for "Flu" patients.

Our shop and office forces have been slowed up for the past two weeks with headaches, colds and those aching muscles that precede and follow the flu.

We missed Major like a right arm that one day he was out with the flu. Glad you're feeling better, Major.
