SALES DEPARTMENT

We think the Sales Department is doing a great job in spite of the handicap which they are trying to overcome. As you know airplanes have been very hard to get and we have distributed the ones we have received as fairly as possible.

Now is the time for us to form a firm basis by giving each and every customer our undivided service and attention. In this way, we can keep our old customers and acquire many others. Remember in each case it's the small things that count with the public.

ANNOUNCEMENT

Piedmont Aviation, Inc. has been appointed distributor for Edo Float, the largest manufacturers of sea plane floats in the world.

BASEBALL

Sam Smith says that our ball team is not getting the support that it needs. We realize that a lot of you can't get to the games every week but please try to attend one of the games every chance you get. We know that our ball team could play a much better game if they had a group to cheer them on.

It has also been brought to our attention that the ball team needs an umpire that they can depend on to be at every game. If any of the readers of this paper qualify for this, please see Sam Smith.

PERSONALS

Wonder what put that certain light in Miss Cockerham's eyes?

What makes J. C. Kelley sing that one song over and over for hours on end? Could be it reminds him of that certain someone.

Wonder what Saunders and Gurney did last week while their wives were gone? Gurney looked a little pale but who wouldn't after eating Saunderson's cooking for a week.
