We understand Messrs. WILLARD and DARK (INT) didn't miss a thing at San Juan. They have just returned from their EAL trip and although they may not tell the same story with respect to details, they are right together on the over-all picture, which is one of splendor and, to quote, "Whoop-de - doo"! - Audree L ONG and Sam HILL (INT-Accounting) also had a swell trip during October when they went to Havana.
