## "THE PRESIDENT'S ANALYST"

James Coburn thinks that everybody around him is out to get him when he portrays the psychiatrist for the president of the United States in Paramount Pictures "The President's Analyst", and you know he's right.

Joan Delaney, a top fashion model, makes her motion picture debut when she plays the psychiatrist's girl friend who eventually becomes his wife.

"The President's Analyst" also features Godfrey Cambridge and Severn Darden.

Before he realizes what has happened, James Coburn finds that he has committed himself to the duty of becoming the President's psychiatrist. As the President unloads his problems upon the doctor's back, he also unloads many vital secrets which friendly or enemy countries would like to get their hands on. Coburn tries everything from disguise to becoming a stowaway to escape their clutches.

Don't miss "The President's Analyst" playing at the GALAX THEATRE on Wednesday, July 17th.
