**N. C. COLLEGES SAY ROOM
 AVAILABLE**

The word went out Tuesday to despairing students: Don't let those statistics fool you, many can still find a spot at a North Carolina college or university, even at this late date.

The information came from the State Board of Higher Education, which said it had received responses to a questionnaire from 47 of the state's 57 institutions of higher learning.

The board said its survey showed 72,332 applications for admission had been filed at the 47 schools with a total of only 34,661 available spaces.

But the board said, the bare statistics don't reveal the true situation.

Room is still available for many students.

The reason: A lot of students file more than one application.

This overlap of applications makes difficult a count of the actual number of persons applying for admission, the Board pointed out in a news release.

In 1967, the board said it conducted a study of the extent of duplicating applications and found that each student filed approximately 1½ applications.

That is, for each 100 students there were 150 applications.

"THE PARTY"

Two motion picture talents who were responsible for the two all-time comedy hits "The Pink Panther" and "A Shot in the Dark" team again for the Mirisch Corporation presentation and Blake Edwards production "The Party," which United Artists is bringing to the GALAX THEATRE Sunday and Monday, July 20-21.

They're Peter Sellers and Producer Edwards. The latter also had a hand in preparing the screenplay and directing the production.

"The Party," described as a spoof of that great American institution the Hollywood party, is said to be unique in that it plays for laughs with comic situations rather than with fast talk. This, it so happens, is a Sellers specialty. The film is also "different" in that it uses only one set - the mansion of a Hollywood star - for its action. That the abundance is attested by the fact that Tom and Frank Waldman, famed for their work with Blake, collaborated in the screenplay.
