### METHODIST NEWS

Ladies who would like to contribute items listed below for the Methodist Ladies' booth at the Hospital Bazaar, July 25 and 26, are asked to contact Mrs. Richard Harrison or Mrs. William F. Harris or bring the requested items to the Presbyterian Church on Thursday, July 24: Hand made articles, White Elephants, Jellies, pickles, etc., or what have you.

Regular services this Sunday morning, July 20. Sermon Text: Matthew 5: 21-30. Adult choir practice each Friday evening at 7 p.m. and Children's choir on Saturday afternoons at 3 p.m. Visitors to Highlands and area are especially invited to come and participate during their stay.

Men of the church are busy preparing their culinary talents for a Pancake Festival to be held in the church fellowship hall on Saturday, July 26. Plan now to come and enjoy a hearty meal of delicious pancakes cooked by these Methodist cooks...for the benefit of the church program. Mr. Clifton Wilson, church lay leader, is in charge.

#### PLANT NUTRITION

On July 22 (Tuesday) at 8:00 p.m. Dr. J. S. Blair will speak on "Trace Elements in Plant Nutrition." The following is a brief description of the subject by Dr. Blair:

"Agronomists have established that compounds of elements such as iron, copper, magnesium, zinc, boron, molybdenum, sulfur, and manganese must be available to plants for healthy growth and development. These are required in minor amounts as compared with compounds of nitrogen, potassium, and phosphorus, and with the major requirements of water and carbon dioxide. The agronomists have also established both the upper and lower limiting concentrations of these minor nutrients, varying with the plant and with the soil. In most cases, too much of one of these minor nutrients is toxic to the plant.

In contrast to the successes of the agronomists, the plant (CON'T P. 19)
