## Group OK's Construction

The Executive Committee of the Atlantic Christian College Board of Trustees has authorized college officials to proceed with the construction of three proposed campus build-

ings at a cost exceeding \$1 million. The buildings include a new women's dormitory, art building and physical education plant (first unit).

The new five-story air conditioned dormitory for women which will house 144 students, will be financed through the Housing and Home Finance Agency at a cost of approximately \$460,000.

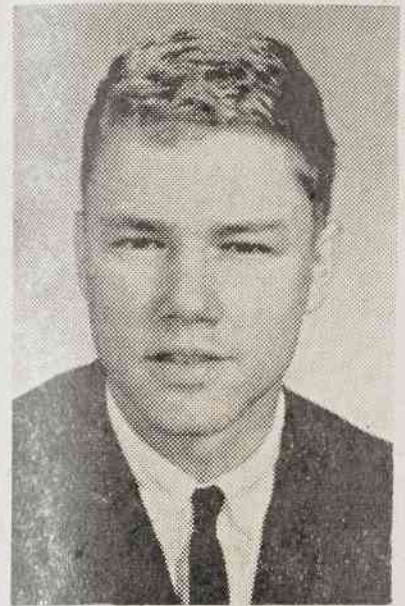

Cost of the new physical education building, which will be constructed without balcony, will be approximately \$395,000. Cost of the art building is expected to be approximately \$185,000. Both will be financed with funds borrowed from the Durham Life Insurance Co., Raleigh, N. C.

Construction is expected to be completed in time for the fall semester of the 1966-67 academic year. Workmen have already begun demolition of six college-owned houses to make way for the new buildings. Construction is expected to begin shortly.

The new buildings are part of the first phase of the college's 15-year program of development.

## Mercer Heads For Florida

Gordon Mercer, instructor in political science, has been granted an assistantship at the University of Florida for the next two years. He

GORDON MERCER

will be working towards a Ph.D. degree.

Mercer has been a member of the ACC faculty for the last two years and has taken a wide interest in student affairs. During this time he has served as an advisor to the model United Nations delegations, the Young Democratic Club, the International Relations Club, and the Executive Board. He has also been a member of the Constitution and By-Laws Committee and has been cited for his excellent advice.

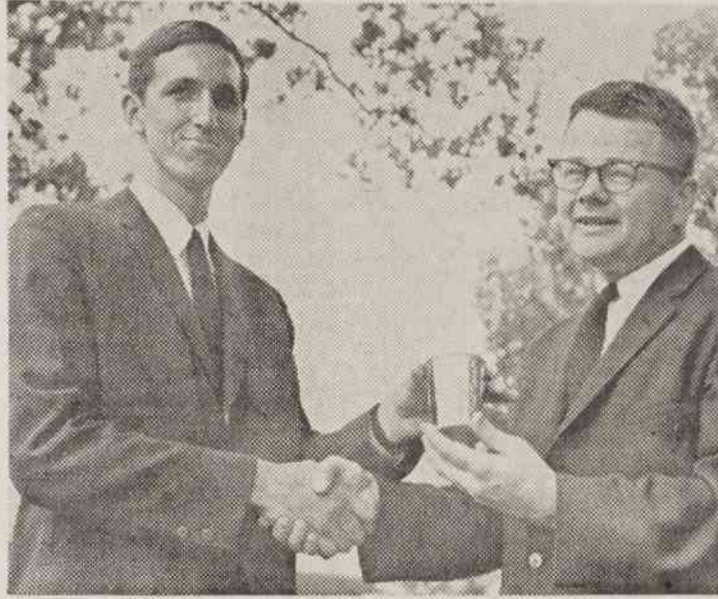

It was from an idea and suggestion by Mercer which resulted in the recent formation of the Panel Committee. This committee held its first discussion on Thursday, May 6, and was well received by those who attended. Mercer stated that he hopes the committee will broaden its scope and topics next year.

## "Crucible" Is Now Available

The second issue of "Crucible" magazine, created through the departments of art and English at Atlantic Christian College, is now available.

The spring issue includes professional art and literary pieces, as well as top level student work in these areas. The communication of ideas in various media is presented through poetry, fiction, essay, drawing and illustration, photography, graphics, and a color foldout suitable for framing.

Volume II of "Crucible" features a portfolio of art work by Leon Bellin, a nationally known illustrator for "Playboy" magazine. Art work by Miss Barbara Llewellyn is also featured. There is a portfolio of photography and student drawings. The literature includes an article by the Canadian composer, Charles Jones, short stories by Pat Outlaw Cooper and John Gold, and some 20 poems.

REPEAT PERFORMANCE—For the second year in a row, basketball star Alton Hill was named recipient of the "Most Outstanding Athlete" award. The award is made annually by the Wilson Kiwanis Club. Shown above making the presentation to Hill on behalf of the civic club is Walter Blake.

## New Exec Board Meets

The first meeting of the new Executive Board was held on Monday evening with about two-thirds of the new Board present.

In the first order of business Randy Smart, senior president, moved that John Gorham be accepted on the Executive Board with ex officio membership. Gorham had earlier been appointed student coordinator by President David Webb. The motion passed.

A second motion by Smart moved that Dead Week be permanently removed from the college calendar. The motion was made when it was learned that the planned Dead Week during November of 1965 would interfere with preparations for the Homecoming activities. The motion passed. On this same note, Cookie Wickham, vice president, moved to recommend to the academic dean of the college that a reading day be considered for incorporation into the college calendar. The motion passed by a narrow margin.

On a final motion, it was moved that the Executive Board approve to the Concert and Assembly Committee an allocation of \$2800 for next year. The motion was ruled unconstitutional since appropriations for next year's funds cannot be made at this time.

David Webb, president, stated that a misuse of the telephones in

the Co-op building had necessitated the removal of the phones from the building. One at least three occasions during the past academic year bills had been received for over \$100 and most of this expense had accumulated through personal calls Webb reported.

## Omega Chi Goes National With Name Changing to Theta Omega

On May 6, Omega Chi, the youngest sorority on the AC campus, became the Theta Omega chapter of Delta Zeta National Sorority. Thirty sisters and one sponsor, Mrs. Bill Smith, were pledged at the ceremony conducted by Mrs. Norman Agler, National Vice President in charge of membership.

Delta Zeta Sorority is the largest national sorority with 160 college chapters. It is the second largest in membership with 53,000 sisters. It is ranked fifth in national sororities. The closest chapter is the Zeta Lambda chapter at East Carolina.

Delta Zeta Sorority was founded on October 24, 1902 at Miami University, Oxford, Ohio. It was the first sorority on the Miami campus.

The official flower of Delta Zeta is the Killarney Rose. The colors

are Old Rose and Vieux Green and the official jewel is the diamond.

The object of this sorority shall be to unite its members in the bonds of sincere and lasting friendships, to stimulate one another in the pursuit of knowledge, to promote the moral and social culture of its members, and to develop plans for guidance and unity in action; objects worthy of the highest aim and purpose of associated effort.

The chain of Delta Zeta friendship is being widened each year through its National Philanthropic Program known as "adventures in Friendship." The program is divided into fields such as Gaullaudet College, Washington, D. C. which is the only college in the world devoted entirely to the needs, instruction, and training of young people who are deaf. Many Delta Zeta chapters

throughout the United States are purchasing hearing aids for underprivileged children. Other chapters provide audiometers and technical equipment, give scholarships to students specializing in audiology and allied fields, and assist in speech clinics. Delta Zeta also contributes to the American Hearing Society for its local centers. Another field of this program is Carville, the only hospital in the United States where victims of Hansen's disease are treated. Through the Navajo Assistance Inc., college and alumnae chapters donate clothing for use by the Navajo Indians.

The Theta Omega chapter will be initiated and installed the weekend of October 2, 1965 and will be presented officially to the city of Wilson and the campus of Atlantic Christian College.
