

## Students Give 217 Pints Of Blood

### Formal Rush Dates Listed

The Interfraternity Council will be holding its Formal Rush from Tuesday, February 21, through Thursday, February 23, at 7:00-9:30 p.m. each night. No definite date has been set for Open Rush at this time.

During Formal Rush the potential rushees go to each of the four fraternity houses, sign the registers, talk with the brothers, and remain until closing time if they wish. Rushees must visit all four houses within this time and sign all four registers in order to be eligible to receive any bids.

Bids will be available in the lobby of the Student Government building at 10:00 a.m. on Friday, February 24. All bids must be returned to Dean Washer's office by 5:00 p.m., Monday, February 27.

Open Rush, the date of which will be announced later, is designed primarily for the man who did not rush the fraternity of his choice during Formal Rush. If he does not decide on a fraternity or receive a bid from the fraternity of his choice during Formal Rush, or simply does not wish to pledge until after Formal Rush, Open Rush is intended for him.

All potential rushees should remember the following points:

- 1) Choose the fraternity that best fits you, and it will probably choose you.
- 2) Wear a coat and tie to all Formal Rush activities.
- 3) Appear neat and earnest.
- 4) Be sure to sign all registers.
- 5) Be yourself.
- 6) If you miss Formal Rush or do not receive a bid from the fraternity of your choice, contact that fraternity about pledging during Open Rush.

### Recording Trio To Sing Here

The "3D's present the 3 R's" will be presented at 8 o'clock March 1 at the Wilson Gymnasium.

The 3D's are a popular vocal instrumental trio on Capitol Records and The 3 R's in this case are not the traditional reading, 'riting, 'arithmetic, but a new approach to 'Rhyme and Reason."

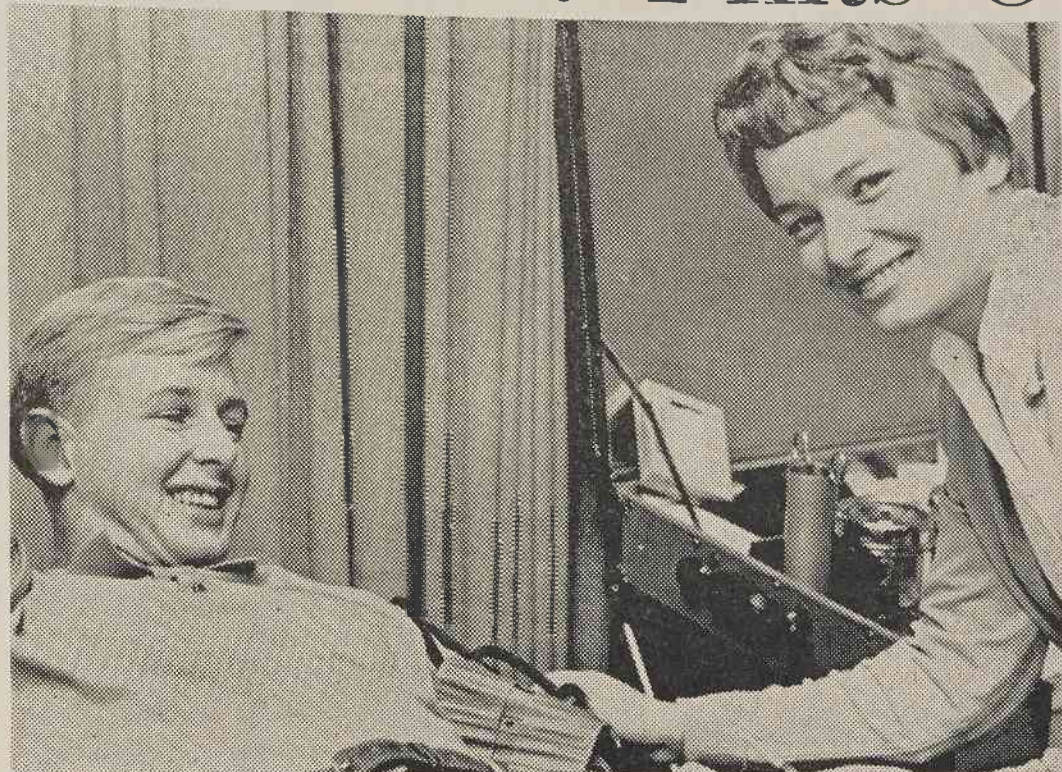

The show consists of two hours of comedy, drama, music and rhythm. At the heart of the concert is the 3 D's unique contribution to the entertainment scene, original melodies and rhythms showcasing some of the world's best-loved poetry.

"Charge of the Light Brigade," "Jabberwocky," "Annabel Lee" and even "Casey at the Bat" are among the numbers given the 3 D's treatment. In addition to the popularized poetry, the trio handles pop music, traditional blues and folk material and even semi-classical selections like Granada and Maleguena. Lacing the show together is the 3 D's own brand of humor which ranges from subtle commentary to the semi-slapstick.

Appearances with Bob Hope, Jonathan Winters, Bob Newhart and others have given the 3D's national recognition. They sang the theme in the Paramount Movie "Town Tamer" with Dana Andrews and have also appeared with Jimmie Stewart, Art Linkletter, "Pa" and "Hoss" of TV's "Bonanza" and other show business notables.

Cash Box magazine said of the trio, "...fresh and invigorating interpretations..." and Billboard has consistently given high ratings to their Capitol recordings. "Variety" and "The

**YEE OUCH**—"Take that thing out of my arm. I told 'ya I was in here for a transfusion not a drainage." Mike Warren, pictured above, was just one of the 217 people who willingly (?), gave blood here last Thursday and Friday to help others who have need for the liquid of life.

### Sigma Pi Wins Race For Greatest Donor Percentage

Atlantic Christian's second Operation Big Drop, conducted last week when the Red Cross Bloodmobile visited Hackney Hall, was an even greater success than last year's drive. The reward was 217 pints of blood donated, a 26 per cent increase over last year's efforts.

Ten campus organizations competed on a percentage basis for the Red Cross plaque, and the winner, for the second time, was Sigma Pi fraternity. Of its 43 members, 42 donated a pint of blood each, to boost the record to 98 per cent. Sigma Pi also won the honors in last year's drive, with 86 per cent participation.

Runner-up in the competition was Delta Sigma Phi, with a donation rate of 75 per cent. 36 of the fraternity's 48 members participated in the drive.

Among women students participation was generally lower. Sigma Sigma Sigma sorority led the list of women donors with 40 per cent participation; of its 35 members 14 contributed. Second on the list was Delta Zeta with a record of 36.3 per cent, and 16 of 44 members participating.

The greatest percentage of non-Greek donors came from the Men's Dormitory Association. Of 145 men residing in the dorm 25 donated, or a total of 17.2 per cent.

During the 2-day visit of the

### Men's Dorm

Plans are now underway to begin construction on the new men's dorm within the next thirty-days. The six story structure will house 144 boys and will cost \$510,000 exclusive of furnishings.

In order to begin construction on the new dorm it was necessary for several items in the original plans to be modified or deleted. However, the basic design of the building has not been altered, according to administrative officials.

Not only will the dorm be air-conditioned, but it will also contain an elevator, a formal lounge, a study room, and a recreation room.

Expected date of completion for the new dorm is May 31, 1968.

## Dr. Wendt, Noted Science Lecturer To Speak Here

Dr. Gerald Wendt, noted spokesman for science as a powerful social force, will speak on the campus of Atlantic Christian College on Monday, February 20, in Howard Chapel at 8:15 p. m. His visit to the campus is being sponsored by the ACC Assembly and Concert Committee.

The science writer and lecturer will bring news from the laboratories on the explorations of outer space, atomic power, advances in industry and agriculture, in medicine and psychology and he will forecast the consequences on the present way of life, on business and economics, politics and international relations and education.

A native of Davenport, Iowa, Dr. Wendt earned his A. B. and his Ph.D. at Harvard University. His early career was devoted to teaching—at the Rice Institute in Houston, at the University of Chicago, and at the Pennsylvania State University where he is Dean of the School of Chemistry and Physics.

During the past few years Dr. Wendt has written hundreds of articles on science used by

newspapers in more than 50 languages and countries. His numerous books on science are international in scope.

While in his books and articles, on radio and television, and in his almost 100 annual lecture appearances, Dr. Wendt reports the advances of science. His main concern is what science is doing to us—in business, agriculture, health, education, in a rapidly changing life. He is considered one of the finest speakers on the platform today. All faculty, administrative personnel and students are urged to come and hear this outstanding scientist and scholar as he speaks to us on the recent scientific advancements.
