Golden Leaf Congestion Is Problem

The 1967 Atlantic Christian Homecoming Parade has been quite a disputed topic over the past two weeks. The dispute has involved administration, faculty, alumni, as well as students.

The annual parade, held traditionally on Saturday morning of the Homecoming weekend had virtually been cancelled this year. The Homecoming steering Committee had announced that their search for an available warehouse, which would house float construction, had been to no avail.

Due to a tobacco backup in the Wilson warehouses, the floors of the houses would still be flooded with bright leaf well past the Nov. 11 date set for Homecoming.

By Tuesday night the outlook was dark and an announcement from the administration had been sent to the Collegiate stating that the parade would, of necessity, be cancelled.

However, this morning, word was received at the Collegiate from the administration that two possible warehouses had been located which would house the float construction. By our printing deadline this had not yet been made official. But, according to Zeb Whitehurst, director of alumni activities, the warehouses had been contacted and the two could house construction of the parade.

Holds First Meeting

SGA Executive Board Meets, And Adjourns

By JOYCE COPELAND
Atlantic Christian College's

legislative pride, the Executive Board of the Student Government Association, held its first meeting of the 1967-68 year on Monday, Sept. 25.

The meeting was highlighted by the unanimous disapproval of President Doug Dexter's plan to establish a general fund for the budget.

Under the new plan, all money which was not used by various organizations during the academic year was to be returned to the general fund. Supposedly the general fund would assure full utilization of allotted funds. After thorough confusion in the disguise of discussion, Dexter's dilemma was voted down.

The Campus Awareness Committee was allotted \$400 from

the Executive Board budget on the condition that all money left unused should be returned to the Board.

The budget for the school

Forget Victorian Standards!

Coeds Should Shed Puritanical Prudishness; Help College Males

By ANN HARDISON

Co-eds at a small, Christian, liberal arts school are traditionally cold, distracted, shy, prudish and Victorian — as is quite evident from a cursory dance at our ACC puritanical girls.

"Our" girls can be seen going to their respective classes in purely respectable fashion — voluminous skirts, yard after yard of flowing materials, and mazes of high-buttoned shoes. It is a common sight to spy several toting their umbrellas to and from classes as they vainly protect themselves from the tanning rays of the sun.

The skirts, as evidenced in our accompanying photographs, are often much too long. Full, lengthy skirts sweep the floors of classrooms, halls, dorms and soda shops. Boys walk dazedly from class to class as they
