NUMBER SEVEN

New Plan For Chapel Approved

System To Be Enforced During Spring Semester

The administration has announced that beginning next semester, a new chapel system will be initiated. The new system, finalized at a June meeting of the Joint Student-Faculty-Administration Committee on Chapel and Assembly, was officially approved at the Board of Trustees' meeting here last week.

The committee, appointed by President Arthur D. Wenger and referred to in the "Report on Chapel Study" made by the President to the Board of Trustees, met on June 1 and 2 to implement the overarching purposes of the college in some type of program worthy of exposure to and confrontation by the student body.

The plan was then approved by the Administrative Council and presented to the Board of Trustees. The new chapel system, though going into effect next semester, will not become fully complete until next year, due to already set dates for concerts. However, the new rules and regulations will be enforced next semester.

According to the new plan, a series of Convocations would be scheduled for the entire student body on Tuesdays at 11 a. m. in the new Wilson Gymnasium.

Fall Schedule

The fall schedule will have three pointedly religious convocations under the leadership of the Chaplain of the College, one convocation presented by the Campus Christian Association, a President's Convocation, two convocations presented by the Concert and Lecture Committee, one convocation presented by the

Campus Awareness Committee, one convocation presented by the Student Government Association, and two departmental meetings.

The convocations for the spring will follow the general pattern of the fall except there will be three Concert and Lecture convocations, only one departmental meeting, and an Honors Day convocation to be held in place of the President's Convocation. Therefore, the total programming will allow for 11 convocations each semester.

Thursdays

Thursdays at 11 a. m. there will be programs called Conversations. These programs will be structured with the idea in mind that any segment of the college community which on their own initiative wished to develop a particular program, discussion, concert, etc. for anyone interested could do so by scheduling a place on campus for their meeting.

Convocation programs will be "of such nature as to require the presence of the students," for the purpose of confronting

Ticket Sales Moving At A Snail's Pace

Coach Ira Norfolk, athletic director and head basketball coach, is in a dither over student apathy towards this year's homecoming basketball game.

Pre-game ticket sales are moving at a snail's pace and he sent out a plea for students to purchase their tickets before game time to cut down on a probable traffic jam at the turnstiles on Nov. 11.

Tickets may be purchased Monday through Friday between 8:30 a.m. and 5 p.m. at the front desk of the Wilson Gymnasium. This year's game will match the Bulldogs against Elizabeth City State Teachers College. Tickets are priced at 50-cents each.

To save yourself a lot of standing in line Nov. 11, buy your tickets NOW! See you at the game!

For the third consecutive year, alumni (but mostly students) are raising funds for the college through an intensive two-week telephone campaign by calling on some 5,000 fellow alumni for assistance. Nearly 300 volunteer workers comprised of local alumni, faculty, staff members and students of the college are taking part in the project. As of Tuesday night, some \$16,491 in pledges had been received.

Board Approves Record

Budget Of \$2,017,347

The Board of Trustees at its annual fall meeting held here Oct. 25, for the first time in the college's history, adopted an operating budget in excess of \$2 million.

Also highlighting the meeting was the election of its new officers, approval of a feasibility study for a degree program in nursing, adoption of a resolution petitioning the City of Wilson to close portions of two streets located within the college cam-

pus, and the election of T. Boddie Ward of Wilson as trustee emeritus for life.

The budget adopted by the board for the 1967-68 academic year amounted to \$2,017,347.

Elected as officers for the Board of Trustees were T. J. Hackney Jr., chairman; J. E. Paschall, vice chairman; and Milton L. Adams, secretary. All are residents of Wilson.

Elected as members of the board's Executive committee

were: S. M. Cozart of Wilson, Ely J. Perry of Kinston, L. A. Moye of Maury, and T. J. Hackney Sr., of Wilson.

Named as officers of the corporation were: Arthur D. Wenger, president, T. J. Hackney Jr., vice president, and Milton L. Adams, secretary.

City Asked To Close Parts Of Rountree, Gold Street

A resolution to petition the City of Wilson to close segments of two streets on the College's campus was adopted by the Board of Trustees during their Oct. 25 meeting.

The petition asks for the closing of Gold St. from its intersection with Dean St. to its intersection with Whitehead Ave.; and Rountree St. from its intersection with Woodard

Ave. to its intersection with Gold St. The college owns all property bordering these street segments.

The college seeks to have the streets closed because long range plans for campus development indicate the desirability of developing a pedestrian campus in the interest of student safety and esthetic value.

Finishing Touches Student Union Plans For Better Facilities

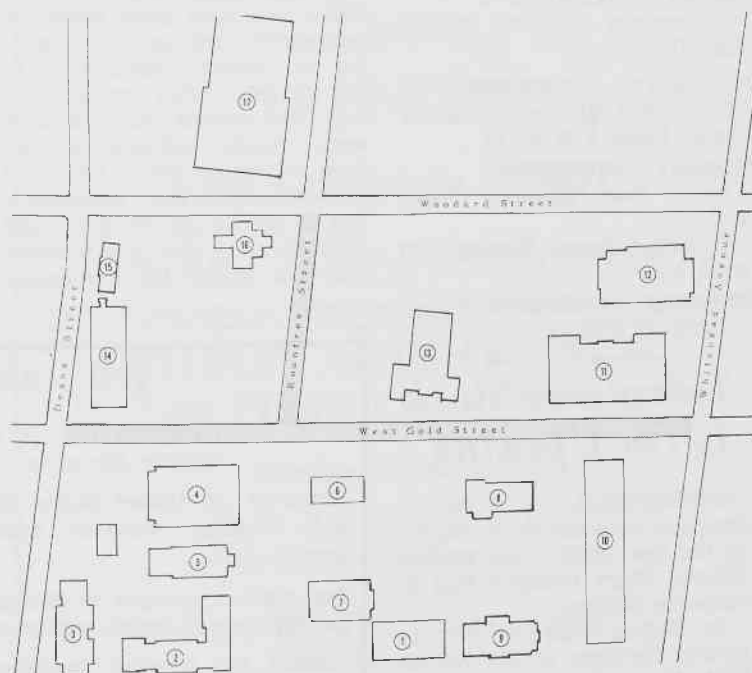

By CARL TYER
If you've been by the Bunk lately and heard a loud motor, it's not the noon meal being prepared. It's the painters putting the finishing touches on the new Student Union. The new structure, which will be opened next semester, is costing \$686,500. This does not cover the cost of furnishing the building. \$470,000 of it is being borrowed from the Federal Government and the remainder is being put up by the college. Total floor space for the new structure is 30,000 square feet. As of yet, the building has not been named.

Located in the building will be a student lounge, cafeteria, student personnel offices, post office, and snack bar. The lounge, or recreation area will provide facilities for 40 to 50 people. Located in the area will be a ping pong table, coin operated pool table, six to eight game tables, and a TV area.

Pending available funds, a color TV is to be purchased and installed in the area along with a wall mount black and white set in the snack bar. The new snack bar will seat 60 people and will provide eating facilities for the Day Students. Located near the recreation area will be an information booth where games can be checked out by students. Also in this booth will be the main control for a P.A. system and Woody

Hayes background music. Also downstairs will be the

Petition To Close

At the October 25 meeting, the Board of Trustees approved a resolution to petition the City of Wilson to close a segment of W. Gold St. and Rountree St. (shaded). The buildings are: 1—Administration Building; 2—Harper Hall; 3—Hilley Hall; 4—Student Center; 5—Hardy Hall; 6—Caldwell Hall; 7—Old Wilson Gymnasium; 8—Howard Chapel; 9—Hardy Library; 10—Hines Hall; 11—Case Art Building; 12—Music Building; 13—Moye Science Hall; 14—Hackney Hall; 15—Lee Infirmary; 16—New Men's Dormitory; and 17—Wilson Gymnasium.

For Better Degree

College Begins Study For A Nursing School

Dr. Arthur D. Wenger, president of the college, in his annual report, advised the Board of Trustees of increased interest in a collegiate nursing program at Atlantic Christian College. Through the proposed program a person would meet all the general college requirements in addition to professional nursing requirements. The program would provide for granting a bachelor of science degree and a registered nursing certificate upon successful completion.

For many years the college has cooperated with the Wilson School of Nursing by offering certain courses to nursing trainees. This was not a degree program and resulted in a registered nursing diploma upon completion of the course.

Dr. Wenger stated the Curriculum Committee of the college faculty has studied the proposed addition to the curriculum and regards it as being consistent with the college's overall aims and objectives. Since the program would have far-reaching implications for the college, a feasibility study has been planned and will be conducted by a committee representing the college faculty, administration, key medical and health interests in the community and the ACC Board of Trustees.

Dr. J. P. Tyndall, chairman of the Department of Science, will devote practically full time to the direction of the study during 1967-68. The study will include curriculum, facilities, financial and HARDY LIBRARY
