Hamlin, Waters Honored

Two outstanding educators, Dr. C. H. Hamlin and the late Dr. John M. Waters, were recognized during a special Honors Convocation held on the Atlantic Christian College campus. Both men have devoted the major portion of their lives to service to the college.

Two new major campus facilities have been named in their honor. The college's student center has been named "Hamlin Student Center," while the college's largest men's residence hall has been named "Water's Hall."

President Arthur D. Wenger, who presided over the recognition ceremonies, said of Dr. Hamlin:

"Society has an incurable fascination for those whose lives have exerted a significant influence upon it. Though much of this process reaches its most perceptive insight when life is seen in the long perspective of history, we can be gratefully that such appraisals need not be postponed until after death.

"Dr. Charles H. Hamlin began his teaching career at Atlantic

Christian College in 1925. While history will yield a more perfect measure of his life and its effect upon generations of students who have known him and loved him, we honor him today because our gratitude for his life calls out for expression now.

"A measure of his useful life has been his courageous espousal of cause which exalt justice and human dignity. His support of such causes has been with utter disregard for political expediency. He has gone through life brandishing an axe wherever he felt chopping needed to be done with blissful disregard as to where the chips might fall.

"Most of all, we gratefully recognize him for his deep humanitarian concern for people — all people; for his commitment to the idea that the education of the human mind requires digging far beneath the surface of accumulated facts, dates and battles. We honor him for championing those principles which, if they were generally implemented in our society,

would enrich the world in the way his life has enriched ours.

"In recognition of his service to mankind through his association with Atlantic Christian College, the Board of Trustees, concurring with an enthusiastic student body and faculty, has directed that the Student Center at Atlantic Christian College be named the Hamlin Student Center.

Dr. Wenger, recognizing the family of Dr. John M. Waters, said:

"Dr. John Mayo Waters' death on Feb. 5, 1969 brought to a close an association with Atlantic Christian College which, with several temporary interruptions, covered a period of 57 years. This association began in 1911 when he enrolled as a student and continued through his service as professor of religion, secretary of the Endowment Fund, business manager and special assistant to the president. This represents a record of service and devotion unequalled here at our college and seldom attained in higher education generally.

"Few members of our current student body knew him but all have shared in the rich legacy of devotion and service which he left to his alma mater, for he was a major architect of those foundations which have given strength and durability to the present and future development of the college. What Atlantic Christian College has become and whatever it may become in the future will always bear the indelible imprint of this life.

"Following his death, the board of trustees, seeking to perpetuate his memory in a tangible manner, directed that the most recently constructed residence hall for men be named Waters Hall.

"It is appropriate, therefore, that on the occasion of this Honors Convocation we gratefully call to mind Dr. Waters' lifetime of service to Atlantic Christian College and accord this special recognition to members of his family."

Tell It Again

In your opinion do you think the changes in the rules will better ACC as a college?

BFS, senior: Yes, it will help get rid of the stigma that ACC is a baby sitter school.

BWS, junior: Yea, it'll help the college, it sure can't hurt. It'll make the college a better place to live and make the students happier.

MDT, senior: It's a promotion out of kindergarten into the first grade.

DJH, senior: I don't think it'll make a better college, it'll just make life a little more pleasant for students who go here.

RLS, sophomore: It should make a much more mature atmosphere around the campus.

PAM, freshman: Yea, but not academically.

WMM, sophomore: It can't make it any worse. If you can't change the teachers you may as well change the rules.

RWP, junior: Yea.

JGC, junior: Yea, because now we aren't living in an archaic society.

ATJ, junior: Yes, because if the students are given some responsibility, they will mature faster.
