## Student Body Meets

By WALTER TYLER

On Monday night at 6:00 p.m. in Hardy Hall there was an SGA meeting. SGA President Robert Cayton presided, with a good number of interested students attending.

The first order of business brought before the students was that of campus security. Danny Smith had done a survey of security situation on campus discussing the school's position on security and how the Wilson police helped out. It was brought out that the main duties were checking to see if lights were turned off and doors locked. There was also mentioned the age factor of the guards employed.

Danny Smith made a motion that the Student Life Committee and Trustees examine the security problems here on campus. Smith then suggested certain hours that he thought the school should have adequate security present. The students agreed and the motion was passed. Their motion will now go to the Trustees.

The next order of business was the length of the weekend hours for women. Margie Thorpe moved that junior and senior women be allowed to stay out till 2:00 a.m. and be given a 30 minute grace period. After there was some discussion on how other schools met the problem of lengthening dorm hours for women. But this original motion made by Margie was carried. This will go to the administration council and if passed will go into effect immediately.

mediately.

Lastly the budget was brought up. The cheerleaders had \$500 deduction from their \$1200 share of the budget and felt they should have a portion of their original budget back. After pleading their case, several questions were fielded from the floor. The matter seemed to turn into a quagmire until MIKE Green, Chairman of the Entertainment Committee, stated that his committee would donate the extra funds to cover the cheerleaders expense and the matter was ended. The budget was then passed and the meeting was dismissed.

## McGovern Speaks On Issues

### THIS IS WHAT GEORGE MCGOVERN SAID ABOUT — WAR

"I am tired of old men dreaming up wars for young men to die in." "Ours is a generation under pressure, engaged in a struggle we did not start, in a world we did not make. We have been chosen to usher in either a new generation of hope or a new generation of terror."

### THE ECONOMY

"It will require a genuine commitment to put America to work ... not on the business of war ... but on the business of building up America."

"What does it do to our nation to invest annually more than half of our entire national budget in building the weapons of death, while neglecting the quality of our schools, our cities, and our lives?"

### EMPLOYMENT

"We desperately need

housing, schools, day-care centers, health care, new transit systems, anti-pollution devices and environmental programs of many kinds. There's enough work in this country for every man and woman who is capable of working if we set our values straight."

### CIVIL RIGHTS

"I shall seek to call America home to those principles that gave us birth." "Liberty is not divisible. You cannot be free to support and not to oppose, to approve and not to criticize."

### WOMEN'S RIGHTS

"As we limit the potential of our women, so do we limit our nation."

**VOTE MCGOVERN -SHRIVER ON NOVEMBER 7th YOUTH**

"Those of you who are young must serve our society in order to preserve what is as old as man himself: his quest for peace and freedom and dignity." "So my generation helped build a base for your generation. And now we have given you something that was not given to us — the right to vote. With it you can insure that our society will be better able than ever before to meet the needs of future generations."

### EDUCATION

"The minds of our young people are our most precious

resource." "Everywhere the praises of education are sung — everywhere, that is, except in the dry pages of the budget of the United States Government; those pages tell a very different story."

### SENIOR CITIZENS

"Good health-care is the right of every American citizen." "The quality of any society can be measured in the way in which it treats its older citizens."

### THE ENVIRONMENT

"The avoidance of a stagnant, polluted nation ranks with national defense, education, and health as essentials in our national life." "We're not going to have another chance at replacing God-given resources once they are destroyed."

### WELFARE

"We must recognize that it is See MCGOVERN Page 3
