

EFFICIENCY IS VERY IMPORTANT

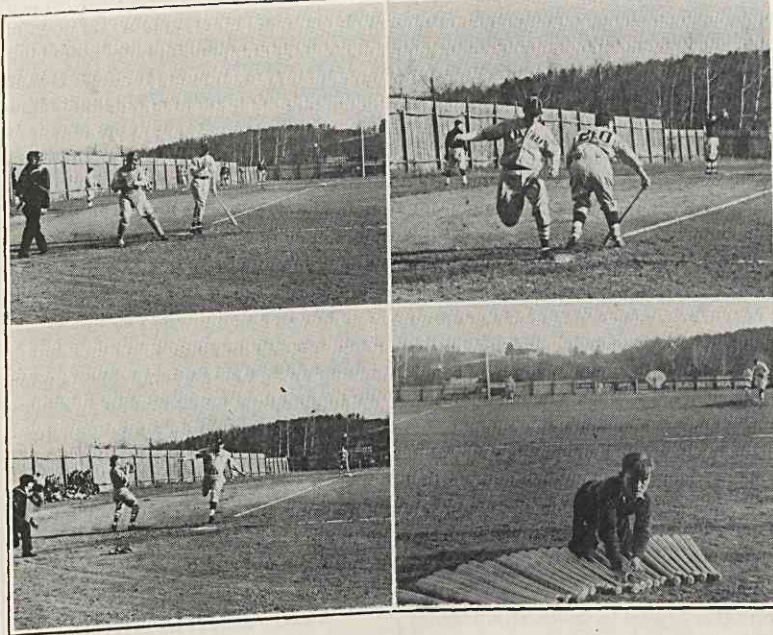

Means That A Job, To Be Done Well and Successfully, Must Be Done In Certain Time Limit

Doubtless some of us wonder at times about those yellow slips of paper on which records of lost time are kept in the various departments. Perhaps fewer of us realize that the information recorded on these tickets and turned in to the foremen is one of the most accurate gauges of how efficiently the plant is being operated. And, it might be added here that this fact makes it all the more important that the number of hours and minutes charged to a particular machine must be as accurate as possible.

And just what do we mean by "efficiency?" Any job or undertaking, to be done well and successfully, must be done efficiently. And by that it means that the job must be done accurately within a reasonable and prescribed length of time. Thus, if excellent quality is obtained on a particular machine, but entirely too much time is required in doing it, then it goes without saying that it was not done efficiently. Or, the same applies to a job which is done poorly but rapidly. Therefore, the responsibility which rests on each and every one of us is that good quality and a maximum of production must be maintained. Fortunately, experience has shown, in a large number of instances, that quality is better when each department is operating at top speed. We can gauge the quality of our product by the way it looks and feels, and our lost-time records tell us if it has been made efficiently.

The most important factor in our mill, or in any mill, can be summed up in one word—Production. To have good production, machinery must operate efficiently. Most of us would be astounded to know the cost incurred by a machine being inoperative for the space of even an hour. We can readily see the vital part each of us play, because if we are not operating a machine ourselves we are making that job easier for the person who does, by keeping the machines in good condition, by hauling materials to the machine, etc. And to those of us who do operate machines, the watchword should be—"Efficient Production." The mill and all its machinery is here for but one purpose, nothing else—and that purpose is to produce. That purpose can be fulfilled

Scenes From Duke Game

Upper left: Clarence Davis, Chatham centerfielder after fouling out. Upper right: Charles Gough, Chatham second baseman, scoring first run of the two-game series in the first inning. Lower left: Cornelius, Duke leftfielder, crossing the plate for a score in the first game. Lower right: Avery Haynes, Blanketeer bat boy.

Blanketeers To Battle Tar Heels In Two Games

Carolina, Which Holds Victory Over Wake Forest and Duke, to Present Strong Team Here Friday and Saturday

Coach Bunn Hearn will bring his strong North Carolina Tar Heels to Elkin for a two-game series with the Chatham Blanketeers on Friday and Saturday. The Tar Heels have another strong team this year, although having been defeated by Davidson and Duke they are picked to make a strong bid for the N. C. Big Five championship. They have won three games to date, over Wake Forest, Davidson once and Duke.

The Blanketeers will present a much improved team when it battles the Tar Heels and have

filled by none other than ourselves, and our earnest resolution should be to see to it that as many pounds as possible are produced, with lost-time reduced to a minimum.

Halitosis is better than no breath at all."

good prospects of winning over Carolina. Rob Robbins will again play shortstop and Southard will likely draw one pitching assignment and Harkrader the other against the Carolina squad.

Line-up:

University	Blanketeers
Vick cf	Davis cf
Rand 2b	Robbins ss
Irwin ss	F. Ha'ht lf
Strayhorn c	Mackie 3b
Tatum 1b	Gough 2b
McIver lf	Clodfelter c
Bullard 3b	H. Ha'ht 1b
Voliva rf	Crater rf
Crouch p	Harkrader p
	Southard p

Other Blanketeers who may see action are H. Stockton, p; Maxwell, p; Parker, c; Hood, c; S. Stockton, P; Mounce, 3b, and Young, ss.

The Chatham team will play the High Point Panthers in Elkin on Easter Monday, April 22, at 4 o'clock p. m.

WAKE FOREST TAKES SERIES

Chatham Puts Up Good Fight In First But Are Unable to Hold Invaders Saturday

The Chatham Blanketeers lost two games to the strong Wake Forest Varsity in their two-game series here Friday and Saturday. The game Friday was hard fought and was scoreless until the sixth inning when Harkrader walked Mitchell and Wall hit a homer to account for two runs. Rhodes held the Blanketeers to two hits while Harkrader held the Wake Forest team to four hits.

In Saturday's game the Wake Forest boys batted four Chatham pitchers to all corners of the lot to defeat the Blanketeers 14 to 5. Shepherd hit two homers, Morris one, Wall one and Mitchell one to account for ten of the visitors' runs.

Fred Hambright and Kermit Mackie continued to lead the offensive work for Chatham with two hits out of four.
