Vol. 3

AUGUST 29, 1936

No. 22

The first view of our power plant to be published up to date. The remarkable thing about this photo is not the fact that it is a view of our new power plant, but that on close observation, in the lower left hand corner of the picture, you will find the actual size of the original negative. This picture is an enlargement of the small picture which was made with a Leica camera furnished us by Mr. Thurmond Chatham.
