

FIRST AID OF GREAT VALUE

Often Victim of Accident is Allowed to Die Because of Ignorance of Bystanders

By **ROY KANE**

In the Winston-Salem Journal of August 13, 1937, was an account of the accidental electrocution of an electrical worker in North Winston-Salem. This man, Mr. A. B. Rose, was apparently dead from electric shock when a fellow worker, Mr. Frank Amick, revived him by use of the knowledge learned from a Red Cross First Aid Course. The Standard First Aid Course is taught by a layman who has passed an instructor's course. An American Red Cross course consists of fifteen hours of instruction and usually are taught at night or after work hours. As you probably know, electric shock paralyzes the nerve center which controls the breathing of the person. When the nerve is paralyzed the breathing stops and suffocation will result in a very short time. Now is where the knowledge of what to do is important. This time where if you lose a minute you may have lost a life. The few minutes time between a shock and death is when the work has to be done. If you have ever had the opportunity of working on a case of this

Charlie Armfield, V. P. I. Blacksburg, Virginia.

Hoke Cockerham, Carolina, Chapel Hill.

Henry Lewis, Moravian College, Bethlehem, Pa.

Billy Jones, Tennessee College.

THE CONSTITUTION

On September 17th of this year the 150th anniversary of the signing of the Constitution will be observed throughout the country. It will be more than the anniversary of the signing of a historic document—it will mark 150 years of undreamed of progress, of development which has made this nation the envy of the world.

We may well ask what is it in this paper, signed by 39 men, which has evoked the reverence of all generations of Americans and the tributes of great men throughout history? What is it in this paper which makes us all equal regardless of the amount of wealth we have, the work we do, our race or creed? We may better

understand it if we consider a few of the rights and protections given to us by the Constitution. These are:

1. Religious freedom.
2. Freedom of speech.
3. Freedom of the press.
4. Freedom of assembly, the right to get together at any time.
5. The right to petition the government to right wrongs.
6. The right to vote and choose our own government officials.
7. The right to work, and to enjoy the fruits of our labor.
8. The right of citizenship or of equal protection of the law.

HAMBRIGHT TO TAKE NEW JOB

Athletic Director of Elkin Mill Accepts Position With Burlington School as Coach

Hoyt Hambright, athletic director of the Elkin Mill, and former Erskine college athlete and prominent figure in semi-pro baseball circles for the past several years has been named to a position on the Burlington high school coaching staff by L. E. Spikes, city school superintendent.

He will take over his duties at the Burlington high school next week.

Mr. Hambright has been director of athletics in the Elkin Mill for the past three years, putting out a winning team both in baseball and basketball. The Blanketeer's basketball team won the Southern Textile Tournament, Greenville, S. C., in '36. His baseball team won the N. C. semi-pro championship in '36 and won seventh place in National semi-pro tournament in Wichita, Kans. also in '36.

Along with his activities in the Elkin plant he served as one of the directors in the semi-pro tournament held in Greensboro recently. Mr. Hambright has many friends in the company who wish for him much success in his new field.

He will direct line activities at the Burlington high school under Head Coach Blaney Rackley this fall, but it is understood that his position will call for the coaching of basketball with the new three coach set-up which is being used this year. In addition to his coaching duties he will teach science and history.

BUSINESS

When we separate the word "Business" into its own component letters—BUSINESS—we find that "U" and "I" are in it. In fact, if "U" and "I" were not in business, it would be no business. Therefore, if business is to remain business "U" and "I" must keep in it. Further, we discover that "U" comes before "I" in business, and that "I" is silent—it is to be seen, not heard. Also, the "U" has the sound of "I", which indicates that it is an amalgamation of the interests of "U" and "I", and, when they are properly amalgamated, business becomes harmonious and altogether profitable.—Schenectady Work News.
