

## MORE EMPLOYEES LEAVE FOR CAMP

Due to acceleration of the Selective Service Program, an additional group of men from Transylvania County left for camp on April 7th. Out of the group of eleven, six were from Ecusta. It is expected that another group, which will include six from Ecusta, will be called April 15th.

The group which left for camp April 7th included Marcus Ned Medford from the Chemical Laboratory, Paul O. Young from the Research Department, James P. Morrow from the Filter Plant, Guy Mull from Champagne Printing Department, Hovey Waldrop from the Pulp Mill, and Sidney Mace from the Machine Shop.

These men were all in good spirits and ready to go as they boarded an early bus in Brevard for Camp Jackson at Columbia, S. C.

## EMPLOYEES—Con.

Corps, so he enlisted for three years service. He thinks he will like it so well that he intends to stay thirty years. We hate for him to be gone so long, but hope that he finds the life in the Air Corps as pleasant as he anticipates.

Allen Smith, from the finishing department, was the only employee to be drafted in March. He was sent to Fort Bragg.

A number of the fellows have written to their friends at Ecusta. Some have written to the Personnel Manager expressing their appreciation for Ecusta. Ed Runnion says, "Getting along fine, my address is: 67th Q. M. Bn, Co. D, Fort Bragg, N. C." Walter McNeely writes, "Am getting along fine. Would be glad to hear from you and get the 'Echo.' My address is Co. A 4th Bn, Ft. Mammoth, N. J." Ed Vasse says, "Having a fine time in the Army, but they moved Moore and Galloway about nine miles away. Send us an 'Echo' please when the next issue comes out. We got the others." J. D. Poland says, "I am just beginning to get accustomed to Army regulations, but I will never be able to thoroughly master them. I will always look forward to the time when I can return to Ecusta."

Ecusta and its employees hope that the boys will really have a fine time in camp and return when their training period is over.

## ECUSTA PAPER CORPORATION IS NOW A MEMBER OF THE WESTERN NORTH CAROLINA SAFETY COUNCIL

Meetings of the above Council have been attended recently by representatives from Ecusta and Champagne, and it was very pleasing to note the amount of intense interest that is being shown in the promotion of safety, not only in the plants, but on the highways and in the home.

The members of the Council are divided into two groups and a handsome safety trophy is presented to the winner in each group at the end of the year. Ecusta is in group No. 1 with Champion Paper & Fibre Company, Beacon Manufacturing Company, Enka Corporation and Sayles Biltmore Bleacheries. It is truly hoped that we can give these plants some keen competition in the prevention of accidents and establish a safety record here at Ecusta that will be second to none.

Let's all put our shoulders to the wheel and do everything within our power to create a good record of manhours worked without a lost time accident. In order to do this, we must all realize that **accidents can be prevented** and that it will only take **honest effort** on the part of those connected with the Ecusta Family to accomplish the above.

## TIME CLOCK—Con.

them how objects of any kind should be lifted.

The meeting was held right over near me and it's easy to remember these simple rules that Rusty gave them:

1. Never try to lift beyond your strength—ask for help and you'll get it.
2. Always crouch down to what you are going to lift.
3. Get a firm grip.
4. Keep your arms straight and keep your back in as near a straight up-and-down position as possible.
5. Lift gradually, — avoid jerky motions.
6. Avoid twisting motions.
7. Life by standing up or pushing up with the strong leg muscles. This takes the strain off the back.
8. **Put things down the same way.**

Rusty ended the meeting with his favorite piece of advice: "Remember fellows, this is the **right** way to lift and it is also the **safe** way to lift. Let's not have any more back strains!"

## ALEXANDER—Con.

nement of Roses

While Alexander's spectacular football performances overshadow his other athletic activities, he was equally as active in other sports. We have never heard of his clouting one over the fence to break up a world series, but he had made quite a success as a professional baseball player, and after graduation he signed a contract with the New York Yankees, which he continued until he asked to be placed on the voluntary retrieve list so that he might come to Ecusta. During the time he belonged to the Yankees, he played with their farm teams at Norfolk in the Piedmont League, Binghampton in the Eastern League, and at Akron in the Middle Atlantic League and Amsterdam in the Canadian American League.

As a coach, he is well known around this section for his success in developing a winning football team at Brevard College last year. Before coming to Brevard College, he had served at backfield coach at V. M. I. He left Brevard last winter to accept a position as assistant coach at Tampa University, subsequently resigning the later position to come to Ecusta.

In his new position here he will be connected with the Personnel Department and have charge of all athletic activities. These activities will include into departmental competition in the various sports as well as "varsity" competition with other industrial teams of this section.

During the summer months he will organize baseball, softball, tennis and other teams. During the winter months there will be basketball, bowling and other outdoor activities.

## SHARE YOUR LOCKER

Mr. Bennett, who is General Superintendent, makes the following statement: "We wish to call everyone's attention to the fact that we have provided ample wash room space and lockers for everyone in the new mill addition and that it will only be a very short time until we will be able to use them. We ask that you continue to be patient and share your lockers with one another during the training period which of course is bringing in many more employees than our locker rooms were designed for."

## WEDDINGS

Announcement made of the marriage of Faye Glazener to Frank W. Bishop on Saturday, March 1st at Greenville, South Carolina. Mrs. Bishop is employed by Champagne Paper Corporation.
