

# BOWLING LEAGUE WILL OPEN SOON

## Enters Team In Tri-City League

Tri-city Bowling League officially open its season the first or second week of September. With this opening view, our Ecusta bowlers get busy and round them-

plans this year call for one team entered in the bowling league. This shall be sponsored by the Paper Corporation and be known by the same name. There shall be a six or seven man team and all Ecusta bowlers are eligible to try for the team. There shall be practice matches for those interested in participating during the month of August.

prospects of having a team are very promising. From last year prove there is a sufficient number of talented and experienced bowlers working for Ecusta to plan on having a division club.

such bowlers as Bruce Wilds, Wade Scroggs, Wilbert, Cicero Sterling, Kappers, "Knuckle Ball" Tom Allen, Jimmie Walter Straus, Theo Williams, and Ted Schepkow representing Ecusta there is a reason why one should be able to forecast a season proud.

## REASONS IN RHYME

by the name of McClure asked if he wouldn't insure;

thought it a joke all he got his leg broke, protection he couldn't procure.

neighbor by name of McNash right a policy, paying the cash;

when hurt he just laughed, for he got a nice draft; would say his action was rash?

at by the name of McTosh that all health insurance is bosh;

he fell in the creek and was seven weeks sick—has changed his opinion, 'b'gosh.

re: "How do you feel after a ride on that horse?"

me: "Gosh! I never thought being filled with hay could be so hard".

## HOGS VS. HUSBANDS

A farmer insured the life of a hog for \$10,000. It was a valuable hog, a blue ribbon winner. When crossing a railroad track it stopped to eat a potato that had fallen between the tracks. A train was approaching. The farmer tried to push the hog off the track. It was a large stubborn hog and didn't push easily. Both the farmer and the hog were killed. The farmer's wife received \$10,000 from the insurance on the hog, but nothing for the loss of her husband. A striking contrast in values. The dead hog was worth more than the dead husband. The hog was an asset—the dead husband, a liability. The widow paid the farmer's debts, taxes, and burial expenses out of the insurance on the hog. The hog was buried in a ditch—the farmer in a nice cemetery, notwithstanding the fact that the farmer had no pedigree—no blue ribbons and no insurance.

## ISMS DEFINED

Going the rounds right now are the following definitions, which are amusing enough to warrant further circulation:

**Socialism:** You have two cows—you give one to your neighbor.

**Communism:** You have two cows and give both to the government—the government gives somebody else the milk.

**Facism:** You keep the cows and give the milk to the government—the government sells part of it back to you.

**Naziism:** You have two cows—the government shoots you and takes both cows.

Good health and good sense are two of life's greatest blessings.

For an interesting personality analysis go over and watch people come through the door connecting the Machine Room basement and the Superintendent's Office. If he is an optimist, he runs through and hopes for the best; if he is a pessimist, he hardly opens the door and tries to sneak through without getting "hit"; if he is phlegmatic, he just goes thru as usual but then gets mad if his hair gets messed up.

**Mother:** "Daughter did I see you kissing that young Roberts last night?"

**Daughter:** "Well, mother, he told me he had just lost an uncle, and I felt sorry for him."

**Mother:** "Well, if I know that young man he won't have a relative left in a week's time."

## CHARLIE'S SON RETURNS

We are happy to announce the safe return of Dr. Robert Margolis to the U.S.A. Bob worked in the Champagne Shipping Department 'till March of 1940, when he left to complete his medical studies in Lausanne, Switzerland.

Bob had a very uneventful boat trip home--no submarines or raiders. He plans to intern for a year before hanging out his shingle.

## MINUTE JUMPING

From atop the Empire State Building you can look across at the giant clock in the Metropolitan Tower. The minute-hand on this clock is seventeen feet long and weighs a ton. Each minute it jumps a foot! Watching it, you can see it jump. Each hour it jumps 60 feet—each day 1440 feet.

That minute-hand is a reminder that life is a matter of minute-jumping. How high we jump in a year, or a lifetime, simply is the grand total of our minute-jumping!

Each minute gives you an opportunity to jump toward your goal. Jump upward by using that minute to push your work, start an important letter, begin a friendship, learn something new, or renew your faith. Let each minute find you a jump ahead on the path to your heart's desire.

Where you are today depends upon the minute-jumping you did during your yesterdays. Where you will be tomorrow depends upon the minute-jumping you do from now on! Use each minute to jump toward the bigger, broader, finer life that can be yours!

## ALL-STAR GAME AUG. 13th 8:15

The hired girl had been sent down to the brook to fetch a pail of water, but stood gazing at the flowing stream apparently lost in thought.

"What's she waiting for?" asked her mistress who was watching.

"Dunno", wearily replied her husband. "Perhaps she hasn't seen a pailful she likes yet".

The calls to Big Time jobs come to those who do Small Time tasks well.

Wife: "I didn't like that new secretary of yours, so I discharged her this morning."

Husband: "Before giving her a chance?"

Wife: "No, before giving you a chance."
