

News And Gossip From Our Various Departments

Power Dept. News

By WARD and NORWOOD

Walter Kay has been seriously ill with pneumonia. He has just returned home from the Transylvania Community hospital and is greatly improved now. Hope you will be back with us soon, Walt. Best of luck!

Mr. Galloway has been out from work for some time due to an extended sickness, but he is back with us and we wish him best of luck!

Obie (Hunter) Willingham attended the Cherokee fair. We understand that he thoroughly enjoyed himself. (What! no bows and arrows, Obie?)

We hear that Sam K. has a "moon treeing dog". Is he for sale, Sam?

A. D. Harrell spent his vacation at Jacksonville, Fla. We will keep you posted as to his "fish" story.

Carl Cantrell attended the Cantrell reunion the other day. We hear that he was "the life of the party." Carl, there's more joy in a smile than in a carload of tears.

Sam Matthews had an accident at the Filter Plant. Take care of yourself, Sam, we need you badly on the bowling team.

Sherman Hunter has a bouncing baby boy at his home. Congratulations, Hunter.

Bill Lyda has returned from Boston, Mass., where he has been attending school. Glad you are back, Bill.

We couldn't get any details from Ward on his fishing trip to South Carolina, but we hear he had a nice swim.

The Power department bowling team has not proven up to expectations thus far. We assure our competitive opposition to look for better games in the future.

"Pete" Norwood and his sister, Mrs. Paul Baker, have had as their guests their father and mother, Mr. and Mrs. A. B. Norwood, of Monroe.

So long until next month.

Office Bits

By FELICIA EDWARDS

Football season is here again, and most of the office force is taking advantage of it. Those who went to the Furman-South Carolina game report a grand time. By the way, Harvey, in the future you'd better watch your step when you go wandering around in strange gardens.

It's nice to have Betty Sue Tilson with us again after an absence of two weeks. She says that losing one's appendix isn't a very pleasant experience.

The Personnel department finally got moved into their new offices and seem to be very pleased with their surroundings.

We welcome Alexander J. Duris and Otis G. Morgan to the office force and hope they will like working with us.

Pat Hodson has just returned from Tampa, Fla., where she was called due to the illness of friends. She reports that both Mr. and Mrs. Ritter are much improved.

Chigger, what kind of watch did you say you were thinking of giving to Mildred?

Those taking vacations this month were: Katherine Kirk, Carl Stephens, Charles Dunlop, Harry Byers, Harvey Souther, Reba Russell, Pearl Hamlin, Lita Steppe, and Ted Reese.

So long till next month.

Refining News

By JACK RHODES

Here it is deadline time again and as per usual, I am late.

First right off the bat, hats off to Clifford, Leland and Paul. They finally have been able to show Thad Newman that they are coon hunters. On vacation now, they left promising some hair-raising tales when they got back.

Ed Whitmire spent his vacation making "lasses" and made enough so that he won't have to buy any breakfast cereal for quite a while.

Les Bryson is not on vacation but he is sure bringing in the meat. Les bought a new gun the other day and killed a nice 125 lb. bear the next day. Now he does it—since the meat shortage is over, so are price ceilings.

If you'd care for jitterbugging, see "Jit" Mills or myself. We worked ourselves into a lather the other night and only succeeded in keeping the neighbors awake. Incidentally, Jimmy is also a fair Pinochle player.

Clannie McGaha seems to be in a good humor these days, his beagle is near hunting age and he loves to chase rabbits (cats, too).

Cleat Hardin has been promoted to be "coffee-getter" in place of Ralph Nicholson and is fast becoming popular.

Jack Wilbur and Al Montville made a fast trip over to see Tennessee whip Alabama. Jack's team won but he's still griping. Shouldn't give so many points, Willy.

"Speedy" Jones has received a warning from the "Up-lifting Society" not to hunt out of season, hunt without license, trespass or buy himself another dog. The one he has is good only for pole-cats and 'possums. "Snatch" Moss is president, Guy Emerson, Sgt-at-arms, and "Doc" Gillespie is Sheriff of the "Up-Lifting Society." If that society can keep Enno Camenzind from trading new cars. Bud White in lighter fluid, and keep J. B. Rogers out of his beaters, why then, I'm all for it!

Rupert Gordon has been out sick for a few days and we hope to see him back soon.

Our congratulations to Floyd Evans on his recent marriage to Miss Helen Kimzey of the Pulp Mill office. Flovd is one of the oldest men in the department and

everyone wishes them smooth sailing.

The engagement of Caskell Rhodes to Miss Helen Smith has been announced, the wedding to take place in November. Miss Smith is from the Mill Office and Caskell, also a five-year man and a beaterman, is from Refining. To all four of you people, the best of luck.

Lamar Hamilton had the misfortune to fall last week and suffers a gash on his forehead and a badly bruised elbow. He is recovering nicely and says he won't try to slide under any more boxes.

"Gizzard" Thomas is one of the hardest men to get a bet with (that I know of). On the Army-Duke game he actually refused to give me 28 points on Army. Huh, the tightwad!

Sam King is building a house on his five days off and Cleat Hardin and Herman Brown will furnish nails, he is going to let them help.

Lloyd McGaha and Jimmie Cox say that they surely will be glad to get back on graveyard.

I hope the next alarm clock that Jimmy Mills gets has a set of instructions with it. He has forgotten how to set the alarm to get up by in the mornings.

That's about enough—so long, folks!

Refining News

"D" SHIFT

By BILL HENSON

Well, here we go again. Another month has rolled around and still not very much Refining news.

Clarence Israel was out from work two days last week with "coffee colic." It doesn't seem that drinking just two pots of coffee would give one the "colic," does it?

Just wonder what Bill Anders was looking for in the parking lot the other day. Hope you found it, Bill.

From the description Maise Hardin gave us of the Hendersonville Fair, we are wondering if he actually got to the fair grounds??

Anyone seeing a horse floating down the river, please notify Walter Nicholson at once!

Jerry Freeman will probably have a hoot owl for sale now as meat is more plentiful.

Allen Kimzey was transferred to "D" shift this week as spare

Autobound News

By SARA LOFTIS And EULA GRAY

Here we are back again with news and views from the Autobound Department.

A miscellaneous shower was given for Mrs. Carl Bryson formerly Miss Clara Barnett, at the home of Mrs. Silver Mann with Violet Lyday, Margaret Smith and Louise Southers as joint hostesses.

We have another bride in our department, Clara Belle Morgan is married to Earl Owen. Best of luck to you both.

Eula Gray is "all smiles" these days since "Dickie Boy" is back in California.

We are glad that Johnnie Dermaid is back with us after an illness.

Willie Prince is also back to work after her vacation in Florida.

Ellen and Betsey are still keeping their late hours. How did the Fair turn out, girls?

Jewell is back to work after a trip to Oklahoma.

Lucy Misenheimer is hoping that she will get a new watch for Christmas since she has been having trouble telling time with her old one.

Evelyn Nicholson wears out more shoes!! Wonder if it's these long hikes she's been taking lately?

There's been talk of organizing a Sewing and Crochet Circle. Will let everyone know when and where the first meeting will be.

Jennie is reported to have received many lovely gifts at a shower in Canton last Saturday night.

Anyone having any "runaway chickens", see Sammy, she can always find them.

Alberta spent her vacation in Florida.

So long and don't get into any mischief on Halloween.

Chemical Lab. News

By THELMA GLAZENER

The topic of conversation in the Laboratory tends toward World Series, football and turning leaves. This means only one thing—October.

Lucy Clarke spent part of her vacation in Norfolk and flew to Charleston for the remainder.

"Cindy" Brown went to St. Petersburg, Fla., for her vacation. Went sight-seeing at Silver Springs.

Dr. Sigmon and family visited the Cherokee fair and tell of interesting exhibitions in archery and craftsmanship.

Eva Sentelle spent five days at Carolina Beach. She also attended the Cherokee Indian fair.

Edith Stiles, Edith Ridenhour and Pearl Mull are still talking about spending the night in Asheville with Julia Morgan.

Anna Holliday toured the Smokies and on the way back stopped by to see the fair at Cherokee.

It's swell to have Mary back and all well after her operation.

By the way, won't someone tell "Punchy" when it's time to go home?

Ned Medford is still "in the air" about the boy. Congratulations!

Dot Johnson says there's no trouble like "moving" trouble. Anyone want help?

beaterman. Welcome, Allen, just don't talk too much and we'll keep peace and quite in here.
