Here's Why Transylvania County Needs More Schools:

Pisgah Forest . . . . .	171	173	268
Brevard Elementary . . . . .	610	639	826
Rosman High . . . . .	142	170	176
Rosman Elementary . . . . .	319	417	462
Lake Toxaway, Montvale

Brevard High . . . . .	349	351	484
Enon-Little River . . . . .	150	184	155
Cedar Mountain-Connestee . . . . .	90	141	91
Balsam Grove . . . . .	64	39	59
Selica . . . . .	63	56	64
Rosenwald-Glade Creek . . . . .	112	123	164
<b>Totals . . . . .</b>	<b>2295</b>	<b>2483</b>	<b>2975</b>

This is an increase of 680 in 10 years or approximately 30%. If this rate of increase continues we shall have nearly 450 more school children in our schools five years from now. With the building boom we are having the increase will likely be much greater. We must provide buildings for this host of children. We cannot wait longer.

Only two school buildings have been erected in the past twenty years—one to replace the primary school building in Brevard and one to replace the Pisgah Forest School. As a result, in Brevard children are crowded into basements, cloak rooms and the auditorium, and in Rosman primary children have been moved into the High School building, overcrowding it and lowering the standard of the primary school. Children in other school districts are housed in dilapidated and unhealthy buildings.
