New Style Accentuates Long Torso Look

Many exciting new styles are making an appearance this spring. An outstanding one is the long fitted torso accompanied by an all around pleated skirt. This lovely pattern is made of pure silk print. You can make this forward-looking dress for yourself from a pattern. During National SEW AND SAVE WEEK, February 22 to March 1, stores will feature fabrics, patterns and notions for your home sewing. This is your opportunity to make those spring clothes you want. (A new leaflet on fabrics and how to use them, FABRICS BY THE YARD FOR FASHIONABLE SEWING, Leaflet No. V 5979, is available free in the Library).
