Bob That Hair, Girls!

Everyone likes to be cool and comfortable in midsummer, especially us women. When we gaze upon someone's short, softly-curled "mop" we sigh and say a silent prayer wishing we could look as cool, calm, and collected. It really isn't hard, girls; it just takes a little time, patience, and ambition.

If you want that certain collected look that makes your hair seem ready for every occasion, get a "feather cut" with a cold wave or machineless permanent. You don't want it cut too short but just so-so. With this mediumly cut bob you can improve your hair styling immensely. If you have that stylish high forehead you are indeed most fortunate because you can comb your hair down in straight bangs or fix it in nice fluffy, softly-curled ones. Be careful when curling your hair and don't make your curls small and tight or when combed it will have that "kinky" appearance.

Ladies' hats are, today, being styled and made for short bobs. Pillboxes, cloches, berets, toques, or tiny bonnets are familiar "small" hats that will make that "feather cut" more attractive. So be in style, girls, Bob That Hair!
