James Wallace Cooper, son of Mr. and Mrs. Medford Cooper (Maintenance) is serving aboard the USS Philippine Sea, a 27,000 ton aircraft carrier operating with the U. S. Naval Mediterranean force. He has a rating of firemen's apprentice.

Young Cooper, who entered service April 13, 1940 after attending Flat Rock High School is a member of the Engineering Department which assists with the operation and maintenance of all propulsion and auxiliary machinery on the ship.
