LETTER FROM BOWLING MAGAZINE

A very nice letter was received from Eli Whitney, Editor of the Bowling Magazine, the monthly publication of the American Bowling Congress, in regard to the cover on the October ECHO.

Mr. Whitney's letter is reprinted in part below: "The cover page of your house organ, 'THE ECHO', is most unique and clever. Some time during the season we want to run a photograph of this in our magazine because we feel that such originality definitely should receive recognition.

"You certainly do have a progressive league and your bowlers should be proud to work for an organization that is so interested in their welfare.

DEADLINES FOR G.I. TRAINING BENEFITS

There are two deadlines to remember in connection with G. I. education and training benefits, Veterans Administration points out.

Education or training must be started within four years after discharge, or by July 25, 1951—whichever date comes later, VA said. As a general rule, it must be completed not later than July 25, 1956.

However, veterans who enlisted or reenlisted before October 6, 1946 can figure their deadlines from the date of their discharges, VA explained. For these veterans, training may be started and completed later than for other veterans.

When women get a run in those new synthetic stockings made from coal, wood, and rubber, how do they know whether they have a clinker, a splinter, or a blowout?

Heredity consists of the traits the child gets from the other side of the family.
