

Mrs. Carrie Nicholson, a native of Transylvania County, is typical of the millions of American Mothers who will be honored on the second Sunday in May. Mrs. Nicholson is 74 years old, and has four sons working at Ecusta—Ralph in the Refining Room, Wayne and Surrent in the Inspection Department, and Harry in the Machine Room.

MOTHER'S DAY

I wish my childhood days to recall;
When I sat at my Mother's knee.
I remember her prayers, her songs, and all
The good things she wished for me.

I hope that I, on this Mother's Day,
Can again sit at her knee,
And thank her in my humble way
For the sacrifices she made for me.

Ever since Anna Jarvis founded Mother's Day, and it was given official recognition by Congress on May 8, 1914, we have paid tribute on the second Sunday in May to the one person who has shared all of our joys and our sorrows—one who has stood steadfastly at our side in our travels through life.

As we look back at our childhood we can recall many sacrifices made by our Mothers, but what we cannot recall are the millions of little things she did which we took for granted as being "in line of duty". These little things are the ones that molded our character, gave us our outlook on life, and made us what we are today. From no other source is so little asked in repayment, so on this Mother's Day let's return some of the love and happiness she has given us. If we live righteously, provide well for our families and bring honor to her name, the pride that she feels in her heart is payment a thousand fold for her years of toil and self-sacrifice. Let us resolve to live as she has taught us to live, so that she will beam with pride when she says, "That's my daughter", or "That's my son".
