Pearl Gosnell reports that she and her family had a nice visit with her mother in Stecoah.

PLANT RESEARCH NEWS

Just a few words for The Echo this month to let the folks know that the "P. R. D." is still in existence.

Fred Findley is our "Bachelor" at this time—his wife and little daughter are enjoying the warm sunshine at Myrtle Beach for a few days.

Lillie Nicholson is spending a week of her vacation now. She said that she was going to stay at home and do some work, but I have an idea that she will spend part of her time some place on a river bank, tempting the fish.

With only four people in our department a long news column is impossible, so for this time, So Long!
