

BELOW, LEFT: Medical staff—All medical services are under the direction of Dr. MacRoy Gasque who is pictured above with his staff. All employees are given a thorough pre-employment examination, including chest X-Rays, in the modern and well equipped medical office in the temporary administration building.

BELOW, RIGHT: Paper Mill and Cellophane Waste Water—Photo shows the discharge header of the 54-inch and the 42-inch reinforced concrete pipe interceptors carrying paper and cellophane waste water. These pipes carry the water formerly carried in the open ditch which has now been eliminated.
