

ABOVE: Twelve or so of the 72 viscose tanks which will be installed in the Viscose Ripening Room are shown in this photograph. After hoisting it up on overhead trolley, men in background are pushing one of the tanks into proper position for installation.

BELOW: The all-metal Wood Pulp Storage nears completion. It is located at the south end of the Factory Building and will be serviced by railroad spur running along its east side. Note portion of box car which may be seen through loading door at right.
