"Why do I buy Defense Bonds on the Payroll Savings Plan? Because it's the easiest and most convenient way to save money.

"I've found that I'm less likely to spend money I've saved if the money is in Bonds. Of course Bonds can be cashed very easily, but, as for me, I just hate to cash one unless it's absolutely necessary.

"Since I started saving on the Payroll Savings Plan three years ago I've saved enough to make a down payment on a house, buy the furniture, and buy a car—and I still have enough Bonds for emergencies.

"As an effective way to save money, the Payroll Savings Plan can't be beat."

"Well, I started buying Bonds on the Payroll Savings Plan back in 1942 and found that it was such an easy way to save money that I kept it up.

"They've come in mighty handy when I needed a little extra toward a vacation trip or a new outfit.

"Oh yes, I almost forgot—I was married on December 16th and I used some of my Bonds for my trousseau. Too, since the 16th, my husband and I have started paying for a house and a car so I cashed some of them to help with the down payments.

"I'm convinced there's no better way to save than by buying Defense Bonds".
