

In the spring our employees quickly turn to doing what they've been dreaming of all winter long. Fritz Merrell (Athletic Director) and Donald Brank (Cellophane Maintenance) look over some new baseball equipment prior to the opening game on April 16. Richard Nicholson (Machine Room) does some ground breaking in his garden before he starts spring planting. Sam Kent (Power Department), our fly-tying fisherman, designs a new model fly to try out when the trout season opens.
