## CELLOPHANE DIVISION

### POWER

By Howell Medford

We of the Power department are in the midst of three factors. This is the season when one's mind either turns to gardening, vacations or fishing. All are off to a flying start. All the boys boast of the fine garden already planted.

Chan Ashworth just about clinched the prize for the largest bass. He caught a 10¾ pounder in Lake Lure. Perhaps most of us already saw the fish or the picture. The fish was 27 inches long and 20 inches around. All we can say is, Chan how did you do it? We do offer congratulations. May as well pay off boys.

As this is written "Pete" Norwood is on vacation. We do not know where he is going, but "Pete" is a traveler so we know he is gone. We will find out when he returns.

Virgil Galloway is on vacation and says he will spend it all on the new house he is building.

Jim Connell spent his vacation getting all set with the garden. He says he plants a big one every year. He wanted to slip out for a few fish but Mrs. Connell says, "On with the garden Jim and fish while it comes up."

Sam Rose spent his vacation on the home and practically all on the basement. Sam put in a drainage system which came in very good since all the heavy spring rains. Seems as if lots of fellows are thinking of security for later. This is a good investment.

We were sorry to learn that Bill Lyday's mother has been very ill. We all hope she is much improved by now.

"Dutch" Burner has gone in the boat business. He bought a boat and plans to run excursions from Rosman to Frozen Creek. We wonder if he will have passengers, fish, or what. He says the boat is really too big. Dutch will be the Captain we are sure of that much.

Bob Duckworth tells us that Foy Guice already started putting the pressure on him about the way he fishes. He almost blamed Bob for Chan catching the big bass. Eben Morrow says these boys fish him plumb out of the meter shop.

Lewis Alexander is looking forward to moving in the new office. We know Mr. Finck and his staff will be happy to have once and for all permanent headquarters. The new office will be an annex to the Turbine Room.

### MAINTENANCE

By George Ryder

Over thirty Maintenance men have taken their vacations since the last writing. There are too many to go in to detail about each, but here are a few. Jim Allison and Don Scruggs took an extended trip through Florida.

Richard Parris, Evan Bacon and Norvell Singleton did a little building at home. Jimmy Gevedon helped care for his wife and their new child (Congratulations, Jimmy!). "Sinbad" Siniard used his vacation to open his drive in theater ("The Star Drive-In").

We were all very sorry to learn that Nick Feagon's wife is ill. We hope that she is well soon. We wish to extend our sympathy to Ralph Baumgarner whose mother died in early April.

Johnny Michael, an employee in service, surprised us all with a visit in early April. Johnny looked fine and even had a California sun tan. He is now stationed in San Diego. Come back to see us again Johnny.

### TECHNICAL

By Jack Smathers

Congratulations are in order to Edward Bell, one of our S. F. Roll Carriers, on his recent marriage. The bride is the former Miss Jennie Siegler. The couple were married at the bride's home on March 15, 1952, and are

at present making their home at Flat Rock. Best wishes, Ed and Jennie, from the Technical Section.

Clifford Frady recently made a new acquaintance — the judge at the last term of court. Better have that speedometer checked, Clifford.

James F. Furr and Helen Morrow will be united in married on May 10, 1952 at Chapel Hill, N. C. Miss Morrow's maid of honor will be her sister, Miss Frances Ann Morrow. James has chosen as best man his father, Dr. W. E. Furr of Franklin. Upon their return to Brevard the couple will reside on Broad Street in Brevard.

A belated acknowledgement to James Winget who assumed the position of laboratory foreman effective April 7, 1952. Not only was it a promotion, but Jim can now enjoy a lot of fishing.
