By

and

Since they have stopped sending the lunch wagon through the mill Bill Bryson has been calling the Mill Office and trying to have his lunch sent to him.

Ray Fisher has traded his car for a late model Ford.

Ennett Wilson is spending several days with Sam Passmore over at (*Nantabala?*) Lake. He and Sam together should catch at least one big one.

"Dandy" Phillips spent most of his vacation in New York and when he returned it was several days before he could talk like a Rebel. We understand that he is looking for an apartment for rent. Anyone know of one?

We welcome Ford Owen back after a long illness. Hope you are feeling fine now, Ford.
