

S UNDER WAY

and R. W. Hubbs, Polyethylene Production Manager, told the group about the Harwid Company of Cambridge, Massachusetts—its products, its operation and its future. "Ted" Hartshorne, Research and Development Manager, discussed the research work being done with cellophane at the laboratories at New Haven, Connecticut. James L. Spencer, Sales Manager, and Dr. John Truesdale, Technical Service Manager, discussed work, functions, and problems of the Sales Department, and outlook on business conditions.

E. B. Garrett, Jr., presided at all of the opening sessions, and Duncan Hunter, Training Supervisor, was introduced to the groups.

Aside from the opening sessions, there will be an additional sixteen sessions for each of the ten groups. Each group will have two sessions during each four-week period.

In the lower photo, Mr. Collisson is shown addressing the Olin Cellophane group. In the front row, left to right, are Messrs. Safford, Hubbs, Hartshorne, Spencer and Truesdale.
