BASEBALL BANQUET BEING PLANNED

Plans are being formulated to hold the Annual Ecusta Baseball Banquet in the near future at which time the Cellophane Operations team, Ecusta's champions for 1952 season will be honored.

All employees who are eligible to attend the banquet will be notified by the Athletic Department as soon as a definite date is set for the occasion

Roger Hornsby holds the season record for the highest batting average in the National League. He had an average of .424 for 146 games in 1924.

In 1948 Pat Seery hit four home runs in one game and was given \$500.00 as a prize.

Ty Cobb compiled a batting average of .367 for the 24 years he was in organized baseball. He held the highest batting average for one season in the American League. In 146 games in 1911, his average was .420. George Sisler tied this record in 1922 when his average was .420 for 142 games.

The modern World Series started in 1903 with Boston defeating Pittsburgh five games out of eight in a proposed 5 out of 9 game series. There was no series played in 1900, 1901, and 1902 because the American and National Leagues were at war with each other.

HOWARD TIGER WINS BATTING CROWN

Howard Tiger, the most traded player of Ecusta's Baseball League, who started the season with Paper Converting and finished with Cellophane Maintenance, copped the league's batting crown for the 1952 season with a batting average of .550 percent.

Phil Riddle of the Paper Converting team was second with a batting average of .529 percent.

Luther Norton and Rusty Carland both members of the Cellophane Operations team wound up in a tie for third place each posting an average of .500 percent.

To be eligible for the batting championship a player had to participate in at least half of his team's scheduled games.

Listed as follows are the batting averages of all players who participated in 4 games or more or went to bat at least 11 times.

NAME	GP	AB	H	Pct.
Howard Tiger	6	20	11	.550
Phil Riddle	6	17	9	.529
Luther Norton	6	16	8	.500
Rusty Carland	6	16	8	.500
Jim Kilpatrick	4	13	6	.462
Fred Miller	8	22	10	.455
John Houston	7	23	10	.435
Jack Ammons	4	12	5	.417
David Sams	7	28	11	.393
Troy Drake	8	24	9	.375
Marshall Gillespie	4	11	4	.364
Robert Head	6	11	4	.364
Pete Dockens	5	15	5	.333
Clifton Thomas	5	16	5	.313
Mitch Taylor	5	13	4	.308
James Clay	7	23	7	.304
Marshall Loftis	6	20	6	.300
Wilson Gregory	8	27	8	.296
Roy Head	8	14	4	.286
Fritz Merrell	6	18	5	.278
Charles Parker	4	13	3	.231
Clint Morris	5	13	3	.231
L. C. Poor	8	22	5	.227
D. C. Landreth	5	15	3	.200
John Landreth	4	12	2	.167
Dennis Norton	6	17	2	.118
Roy Compton	7	18	2	.111

In 1904 Boston won the American League pennant and the New York Giants copped the National flag, but an old feud opened up again between the two teams and no series was played that year.

In 1896 Ed. Delehanty hit four home runs in one game and was given four boxes of chewing gum as a prize.

Roger Hornsby holds the season record for the highest batting average in the National League. He had an average of .424 for 146 games in 1924.
