

"B" SHIFT FINISHING

By Joe Wilde, Jr.

Hi neighbor.

The year 1952 is almost gone. Let's all try to set at least one good new years resolution and stick to it.

For the month of November most of the boys have been talking about deer hunting and Thanksgiving. "B" Shift happened to be working graveyard the week we got the free turkey dinner and a man's appetite isn't too good at 3:15 A. M. But most of the boys did well, anyway.

Luther Norton of Wrap and Pack got a 120 lb. buck. Luther said he killed the deer with a New Model 94, 30-30 Winchester. Howard Tiger went along with Luther. One boy said Howard killed a goat and thought it was a deer.

Several of the fellows are wondering what happened to Charlie Clark's and Duane Hooper's mustache. Someone said, "Charlie had to cut his off after he got glue in it". There's one of three things that could have happened to Duane's: he stepped on it and pulled it off; his wife made him cut it off; or as he has a habit of smoking cigarettes so short, he could have set it afire.

A couple of guys on No. 5 said, "Now that deer season is over, Harold Misenheimer will have to pull away the heating pads he has been using to keep his feet warm on these cool mornings." And he'll also have to tear down the nest he has built up in a tree to spot those deer. They might come in handy next year, "Micie".

Bob Stuart says Grady intends to build a house as soon as he gets his 30 wood pallets. How about that, Grady?

Harold Misenheimer would like to know what is the matter with the sight on that new rifle of yours, Carlos?

Several of the boys have been wondering how many times Bob Stewart missed that big buck?

Harley Hampton and Andrew Hare hope James Gillespie will make a fast recovery from the lovesick blues.

I wonder what it is Bill Osteen likes about a Ford convertible? Could it be a moonlight night in the park with someone like

Bob Whitaker would like to know how a man gets a new road into his house. He's wondering if Horace Blythe could give him a few hints along that line.

It seems that Tom Ellis has a hard time telling Andrew Hare and Harley Hampton apart since Andrew started weighing.

All the boys on "B" Shift would like to welcome Frank Thompson. Frank transferred from "C" Shift.

"C" SHIFT FINISHING

By Robert Taylor

Same ole story each month when I ask for news. "Nothing now, but I'll have some next month."

Harry Blake and wife enjoyed a week's vacation in Florida. Wouldn't it be nice to go to the beach in the winter?

And another vacationer was Ashley Dickson. Ashley spent a week of relaxation and hunting. The hunting was no good. He saw one buck, but it was too far away.

Here is a debatable question. Will the army or matrimony get Paul Seagle? He is in line for both this month. The bride to be is Betty Jennings from Franklin. The wedding is to take place December 22 in Franklin. Good luck, Paul.

Roland Mull still hasn't made up his mind. He had a '49 Chevy traded for a Cadillac, back to his Chevy and now he tells me he has a '52 Chevy. Roland, I think I would be sold on the last one.

Hayne Arthur is our new weigher from "A" Shift. Welcome, Hayne. We hope you like working with us. Our loss was Frank Thompson to "B" Shift.

I wish Mack Gillian and Ralph Case would get together and see which has the better car. They are both getting about 35 miles a gallon—and the speed is beyond my telling.

Fred Connor decided that two cars are not necessary, so he traded his A model on a calf. It seems Harry Blake knew a good time for Fred to take it to the market. He was accompanied by Harry and the calf was purchased by Harry. (The beef market was down.)

Exploring Toxaway Falls are James Mitchell and Stanley, the sons of Mr. and Mrs. Robert Smith of Brevard. James is 22 months old and Stanley, 3½ years. Robert is in Cellophane Finishing.
