

DEPARTMENTAL NEWS

CELLOPHANE DIVISION

PLANNING

By Louise Huffman and Gay Nell Brewer

Congratulations to Mr. and Mrs. Johnny Misenheimer! They have a new baby at their house. It's a girl, she weighs five pounds, and her name is Martha Ann.

Our office has sure had its dose of sickness and colds for this month. Only a few lucky ones have been missed.

Sam started his fishing season off with a bang. He caught eleven bass Sunday. Looks like he is living up to his New Year's Resolution.

Several of our office crew attended the annual Polio Dance at the American Legion Hall, January 30. From all reports, a good time was enjoyed by everyone.

That Henson Whitaker! He nearly choked us all to death the other day smoking a cigar passed out by our new papa.

We wish a Happy Birthday to the following members of our office: Barbara Talley, Betty Batson, Martha Jaye Neely, and Sam Kent.

Lou, Bobbie, and Mary went on a shopping spree to Asheville the other Saturday. Bobbie bought a new skirt, Mary got a new permanent, and Lou—she ended up with a headache. Such luck!

We all got together this month and decided when we wanted our vacations. Sure was a tough job, but we finally decided. First one up this year was for Mary. She and Dick went to the Mardi Gras at Mobile, Ala. They said the azaleas were very beautiful, the Mardi Gras Festival was breath taking. In fact there was never a dull moment.

Lou seemed to have a mighty important reason for wanting to take her vacation in March, but she wouldn't tell what it was. What's up, Lulu? It couldn't be a wedding, could it? March 14?

Laces and ribbons have come out of the old family album to become hits in the latest Paris fashions. There are lace dresses with ribbons and suits and dresses made entirely of ribbon.

With only 7 per cent of the world's population, the United States turns out half of the world's industrial products, because we have the most tools and the most efficient business organizations.

OFFICE

By Hazel Zachary and Ann Akins

Hazel is going to be co-reporter and we will do our best to tell all. We heard:

That the Bill Alexanders have adopted a baby boy. Congratulations to you both, Ruth and Bill.

That Paul Frisk was not the only early bird on vacation planning—Helen Jo was overheard planning a Florida trip this year.

That Ralph Heller made a short trip to N. Y. where he gave a talk on "Glycerine and Cellophane" to the Association of American Soap and Glycerine Producers, Inc.

That nearly everyone in the office and a lot of families of office people have had the flu.

That if you like unusual pets you should see Lucille's parakeet, Tweetie. He talks about as much as a four year old child.

That I was very flattered to learn I had been chosen as co-reporter for the office until I realized that Ann was spending so much time rearranging her furniture she didn't have time for much else. It has been rumored that rollers will be put on her furniture in the near future.

That Dean Brownell is a weather prophet. It's a sure thing—Monday rain, followed by Tuesday rain, followed by Wednesday.

That the following have recently bought or are building new homes: (hope we didn't miss anyone) Ralph Heller, Don Parker, George Yehling, Spud Carpenter and Bill Woodward.

That the following are celebrating birthdays in February: Mildred Reese, Ione Cordell and J. F. Keating. In March: Bill Orr, Ed Koch, Betty McGuire, N. H. Collisson and Ruth Reid.

That L. C. Poor is the new guy in Records. L. C. transferred from the Ecusta Main Office. We hope he will like it here.

We were sorry to hear of the death of Bill Orr's father-in-law.

That Ruth Harden is resigning to take a job at Oak Ridge. She has been with the company approximately six years. We certainly are going to miss her and wish for her the best of luck.

The four B's of middle age — Baldness, Bifocals, Bridgework and Bulge.
