

## DINNER HONORS PAUL R. HEYGEL

Above: Paul Heygel (Center), retiring Technical Supt. (Finishing Dept.) was presented gift of luggage at party given by friends.

Right: Some of those who attended.

A large group of "old-timers" and friends of Paul Heygel were on hand for a dinner in his honor at the Skyland Hotel in Hendersonville on April 8 to bid him "bon voyage". Paul retired from active duty as Technical Superintendent of the Finishing Department on March 31, after 32 years of service.

Paul began his association with the late Harry H. Straus in 1911. This association carried him into various field of planning, engineering and manufacturing with the following industrial organizations: Boucher Cork Company, Hans Straus Company, Cigarette Paper Printing Company, Ebcu Machine Company, Boucher Cork and Machine Company, Magnetic Sign Corporation, Peerless Roll Leaf Company, Cork Import Corporation, Electric Directory Company, O. K. Button Mould Company, Sterling Gold Stamping and

Embossing Company, Rotogravure Company, Champagne Paper Corporation, Ecusta Paper Corporation, Endless Belt Corporation and Olin Industries, Inc.

High tribute was paid to Paul by those at the dinner as well as those who were unable to attend. A quote, which follows, from a telegram from Frank Marder is typical of the many tributes paid to him: "The many years of association with you have brought about a lasting friendship between us. Your devotion to your work and fair play with your fellow employees have been a great inspiration to all of us. Out of rubber bands, cardboard and small pieces of hardware, you succeeded in developing many of the processes now being used profitably by our various departments."

All of Paul's friends at Ecusta wish him the best of luck, a pleasant trip, and safe return to us.
