

## SHEETING & SHIPPING

By Callie Talley

It sure is hard to come inside to work on these beautiful spring days. Sometimes we wish we worked shifts so we could enjoy more of the daylight hours.

Our sympathy to Mr. Bennett, Floyd Myers and Lorena O'Kelley on their recent bereavements.

What's this we hear about Wilmer McGee working extra on the baler? Was he looking for a lost check?

We wish to welcome two new employees this month, Dick Bryant and J. M. Taylor. Hope you like working with us, fellows.

Jim Case and Bobby Marshall have been transferred to slitting.

Willie came in after vacation brown as a berry. It's easy to see she had been to the beach. James McCall was also on vacation, but he said he worked all week.

Lewis has had another wreck. Must be something about spring. Remember he had one last year about this time. He didn't escape as lightly this time—he has a broken arm.

Thanks to Ray Keener we've seen and tasted ramps. They're good.

Becks says she's going to get Ellis a rubber hammer to use when he makes packing cases.

We're glad to have Ruby back. She's been helping out in the lab most of this month.

We can't understand why Willie loses so many pencils. Ken isn't in school yet.

Cecil McMinn and Ellis Revis are all excited about their new homes. Cecil has bought one and Ellis is building one.

Congratulations to Mr. and Mrs. Ray Owen. They have a new son named Johnny Ray. Let's hope he doesn't do much of that for which the singer of the same name is noted for.

Tommie, don't you think it's kinda cool for swimming? Tommie and Bob went fishing and Tommie pushed Bob but Tommie was the one who got wet.

## TEN-YEAR CLUB

The following employees became eligible for the Ten Year Club during the month of April, 1953:

NAME	DEPARTMENT
Willa Faye B. Foster	Technical-Cellophane Div.
William Edward Kilpatrick	Machine Room
Sadie S. Price	Finishing-Paper Div.
Reuben M. Dalton	Finishing-Paper Div.

A smile goes a long way, but you're the one who must start it on its journey.—*Grit*.

## "A" SHIFT COATING

By Lonnie Jones

Here it is Echo time again.

The biggest event of the past month was the chicken fry held at Camp Straus for Coating, Chemical & Casting. A fine time was had by all, and the chicken that Henry Whitmire and Bly Rogers

prepared seems to get better with each party we have. I know all the boys join in with me to give them a vote of thanks. The entertainment was furnished by Melvin Atkinson. He can dance about the best of anyone I have ever seen.

Monroe McCall has returned from his vacation with some good fish tales. On one trip he went, he caught ten rainbow trout, and they all averaged over twelve inches, but big fish is not all Monroe catches. He told me he went out the other night to catch some night crawlers. He caught one about two feet long, and half as big as your arm is around. He said he used that one crawler all day, by just cutting pieces off of it to bait his hook.

If anyone has any plastic tile to install in their kitchen or bathroom get in touch with David Sams. He is quite an expert on installing tile. He has just finished his bathroom, and can tell you what and what not to do.

Gordon Hollingsworth leaves on his vacation the eleventh. He said he had planned to go to Florida, for a week, but there was so much work to do in his garden, and around the house that he doubted if he even got to go on a picnic. Gordon, you know how I feel now.

That's about all for this time. See you next month.

## "B" SHIFT COATING

By  
Henry Bell  
and  
Jim Silver

To begin with, we are very sorry the Echo news didn't get in last month, but we'll make up for it this month.

We would like to take this opportunity to congratulate Mr. and Mrs. Marvin Reid who has a new baby girl at their home. Boy, take it from me, Marv, it sure helps that old income tax deduction.

D. S. Winchester just got back from his vacation in Florida and says he had a wonderful time there—after he painted his house here, that is.
