

## General Research Organization Of Olin Industries Consolidated

With rapidly expanding research programs due to the growth of Olin Industries, Inc., the activities of the Company's General Research Organization have been consolidated into four major categories under research executives, Dr. Fred Olsen, Vice President for Research and Development, announced.

H. A. Bruson has been appointed Technical Advisor to the Vice President for Research and Development; O. J. Swenson has been named Technical Director; T. C. Gerber has become Administrative Director and L. R. McClary, director of Product Commercialization.

Other appointments follow: C. W. MacMullen, manager Organic Chemical Research; R. L. Womer, manager New Products Research and Assistant for Division Research, and B. deB. Darwent, manager Physical Chemical Research.

T. A. O'Brien was named contract assistant to the Administrative Director and Ralph Lamberson was appointed Administrative Assistant.

### John M. Olin Elected Trustee Of Cornell

John M. Olin, President of Olin Industries, Inc., was elected trustee of Cornell University, Ithaca, New York, by the Cornell Board meeting here today. Mr. Olin, who succeeds the late Robert E. Treman of Ithaca, will serve until 1956.

The late F. W. Olin was a Cornell trustee for 17 years until his death in 1951.

### TEN YEAR CLUB

The following employees became eligible for the Ten Year Club during the month of February, 1954:

Name	Department
Burnice E. Roberts.....	Machine Room
Paul F. Roberts Jr.....	Machine Room
Arnold M. Anders.....	Cafeteria
James Berlin Fisher.....	Chemical & Casting
Edna R. Oliver.....	Converting
John W. Heatherly.....	Fibre Warehouse

The longest plank road in North Carolina was the one that ran from Salem to Fayetteville. It was 130 miles long and was completed in 1854. Building of plank roads came to a halt with the operation of railroads.

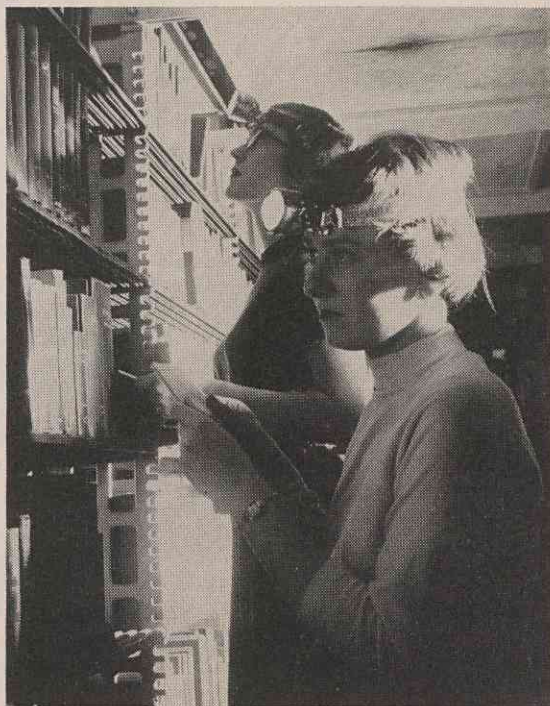

Bath was at one time the capital of the province of North Carolina but it never was the capital of the state after North Carolina became a part of the union.

## EASTER BINGO PARTY!

FRIDAY, APRIL 16,  
8:30 P. M.

ECUSTA CAFETERIA,

FOR EMPLOYEES AND THEIR  
WIVES OR HUSBANDS ONLY

*The Electrical Division of Olin Industries donated head lamps for the use of pages of the New York Public Library while the library lighting system was being rewired. The library's 3,500,000 books are stored on some eighty miles of shelves. During the rewiring the time required to fetch a book from a blacked-out section rose from the normal seven minutes to almost forty . . . that is, until our Electrical Division made its gift of headlamps.*
