

*Above: Nearing completion is the new paint shop located behind the welding and sheet metal shop. New building provides approximately six times as much space as present building housing the paint shop. Right: Leanus Chappell uses spray gun for painting duct work from exhaust fans.*

Whitaker handles, through his group, painting, lettering and sign painting, and glass work. J. D. Gossett heads up a group for brick work, concrete jobs, plastering and other masonry assignments, while J. E. Sprouse, through his group, performs unloading services plus handling of materials. F. J. Fendley supervises a group in the maintenance of grounds, earth moving activities and insect control.

*Left: The Paint Crew listens to lecture on painting methods given by Mr. S. L. Risdon, Technical Advisor for the Pittsburg Paint and Glass Company. Back row: (l. to r.), Foreman J. S. Whitaker, Carlos "Bear" Tinsley, Andrew Harris, Ralph Green, Briscoe Parker. Front row: Lester Lemmons, Jesse Chapman, Frank Fisher, Richard Pace, and Robert Taylor.*
