

*Nearing their second birthday are Danny and Dianne Landreth, twin son and daughter of Mr. and Mrs. John Landreth of Pisgah Forest. John is employed in the Film Division's Casting Dept.*

*Getting to be quite the young lady is six months old Sharon Gail Higgins, daughter of Mr. and Mrs. Herbert Higgins. Herbert is employed in the Chemical and Casting Department (Film Div.)*

### "B" SHIFT CASTING

By Thomas Hooper

Here it is the month of June and very little to write about, not even a June bride or bridegroom.

Earl Garren has the fishing fever but says he will wait about a month yet so his cute red-headed boy can go with

him.

Buddy Hooper and Rupert Gordon decided to go to Lake Hickory and try their luck. After fishing all night and nearly freezing to death they finally caught four crappie about 6" long. When they started back to the boat dock they forgot the fish and consequently lost them. Better luck next time, boys.

It seems our baseball club is improving as our last game brought us up the list a good way. Here's

hoping we can reach the top before the season closes.

"B" Shift Casting, Coating, Chemical and guests enjoyed a stag party at Camp Straus on May 20. Our heartiest thanks for the use of the building as it was raining and would have ruined our party.

Carl Watson seems to have a busy time these days. His talented children really keep him busy. I believe he is well paid by the way they can play and sing.

It seems John Thomas and Dick Landreth have been getting plenty of sun and exercise playing golf. There has been some talk of an exhibition at the Country Club, so we really are looking forward to it.

Maybe if warm weather ever gets here there will be more to write about. The nights lately have been like winter instead of summer.

That's all for this month, so if you are single, don't let June get the best of you.

### "D" SHIFT CASTING

By Kenneth Moore

Well, it seems as if our news is annual instead of monthly.

Charley Morgan is the biggest news. He is the proud papa of a big baby boy. Congratulations, Charley!

Some of the boys are taking their vacations. J. T. Reid spent a week in Florida and had some good fishing—he said.

Jess Snyder spent his week mothering his

chicks. Which ones?

We don't know what Charlie Morgan did on his vacation—he won't talk.

Plato Reece spent his week gathering material for "Doc" Charlie Ireson to build a house trailer. Jiggs Breedlove peeped at his blue prints on it while he was gone to lunch and the best we can tell it is to be about two hundred feet long and nine feet tall. Tom Brown is to give it a trial run with his Henry J. when it's completed.

Notice to all softball teams: If you have any
