

Here's What You Thought

In July a questionnaire was given to each hourly employee concerning our Athletic and Recreation program. Approximately 1,000, or 61% of the hourly employees, completed the questionnaire.

The company realizes that no one activity in our program appeals to all employees. It is encouraging, however, to see the highly favorable

response that our present program received. It is certainly an endorsement of the activities which the company sponsors for employees.

Following is a tabulation in percentage, by male, female and over-all total. A tabulation was also made by age, but the percentages were so uniform, regardless of age, that it is of little interest:
