*E. H. Bellows*

of Arts and Master of Arts Degrees from George Washington University, Washington, D. C. He is a member of Phi Beta Kappa. He was president of George Washington University, Washington, D. C. He is a member of Phi Beta Kappa.

## OLIN MATHIESON ACQUIRES INTEREST IN CALIF. FIRM

Olin Mathieson Chemical Corporation has acquired a substantial interest in Hunter Engineering Company of Riverside, California, an enterprise engaged in research and development in methods of fabricating non-ferrous metals. The announcement was made September 22 by John M. Olin, chairman, and Thomas S. Nichols, president of Olin Mathieson.

Hunter Engineering Company has under construction at Riverside a facility with an area in excess of 200,000 square feet of floor space which will be fully equipped for research and development in the casting, rolling, forging, extrusion and fabrication of aluminum. The initial facilities are expected to be completed in 1954.

Hunter Engineering Company will cooperate closely with the Metals Division of Olin Mathieson in development work on all non-ferrous metals.

Joseph L. Hunter, president of Hunter Engineering, will continue as chief executive officer of the firm. He is well known in the aluminum industry for his work in the development of fabricating equipment and for processes of fabricating metal.

## 35 YEARS SERVICE

*George D. Heyman*

Office Manager George D. Heyman is a Charter Member of the Fifteen Year Club which became effective this month. Also in September he completed a total of thirty-five years of service with companies which were owned or controlled by the late Harry H. Straus. George joined Boucher Cork and Machine Company in 1919, transferring several years later to Cork Import Corporation. In 1935 he joined Champagne Paper Corporation, and came to Ecusta when Champagne was moved from New York to Pisgah Forest in 1939.
