

## PLANNING

By Bobbie Talley and Bettye Batson

Please accept our most humble apologies for keeping our gossip to ourselves but the things we could write about the personnel of Planning couldn't be published. (Only kidding of course).

The big news in Planning was the changing of Dorris' name on October 2. She became Mrs. Paul Owens in a beautiful ceremony in the Oak Grove Baptist Church at 4:00.

Bettye and Jency looked their loveliest as bridesmaids. From what I hear, there was more excitement at rehearsal than at the ceremony. Huh, girls?

We just couldn't fail to tell you where Dorris went on her honeymoon. They traveled westward and ended up on the coast—Long Beach, Calif. At this writing she has been away almost five weeks. We miss her, but we're happy that she could have such a nice trip for her honeymoon.

Eddie had a birthday and acquired quite a few nice gifts, but the most outstanding was a beautiful watch. Who was he Eddie? That story about a little bird bringing it just doesn't go over with us.

If you were to see Willie these cold mornings you would think he was getting ready for a trip to the North Pole. He is out in Shipping where there's nothing to keep out the cold weather (due

to new construction).

We can't touch Sam with a ten-foot pole since the new addition to his family—a "snazzy" two-tone '54 Mercury. We're all waiting for a ride.

Tom, we hear you had an accident with your new auto. Hope everything is straightened out by now.

We're glad to see that Henson is still with us. We expected him to move on with the circus. You'll be much happier with us, Henson! Honestly you will.

Lu, Jency, Eddie, Dotty and Bobby were on the sick list but are back at work now.

Who was the guy from out in the area that Barbara Hull was seen with the other Saturday night? This could become interesting.

Bill's got a new shotgun and you know what that means? More news concerning his hunting next month.

Could Barbara Talley's bright eyes be attributed to a phone call from Pensacola, Florida, and a BIG homecoming in the near future?

Wonder if Luther and Johnny are planning to do any big game hunting this year? Let us hear from you boys.

Last, but not least, we wish to thank Mary Jo, Dot McCrary, Ruby, Allie Marie and Martha Jaye for their assistance in Planning.

Guess that's all. See you again next month. "Glad we could get together."

Above: Beef (3820 pounds of it) for the Paper and Film Division Cafeterias. Warrior McCall (far left) of the Paper Division Cafeteria attended the W. N. C. Fat Stock Show and Sale at Enka,

N. C. on Nov. 10 and purchased the four calves for Ecusta. All four were from Transylvania County and were raised by Dale Passemore, Jim Canup, Jackie McKelvy and Henry Sitton.
