

There are two types of dies. One is the T-shaped die which is used for flat film and from which the film is drawn into a tank of water for cooling, through a tension control device and to a wind-up machine. The other type is a circular or tubular die from which lay-flat tubing is extruded.

Polyethylene flat film is produced at Pisgah Forest in gauges from .0015" to .006" and in widths from 1½" to 103". Tubing is produced in gauges from .0015" to .004" and in lay-flat widths from 6" to 38".

As an added service for the customers, flat film and tubing are produced with a special surface treatment to receive ink in the printing process.

Some polyethylene film is now printed by our customers with full color reproduction.

USES

Polyethylene film as used in the packaging field has many applications some of which are frozen foods, fresh produce, dehydrated milk, sea foods, dry goods, candies, soaps, silverware and hardware. It is used in other trades for the manufacture of garment bags, shoulder covers, dust protectors, hosiery and cosmetic bags, furniture covers, seed bed covers, case and drum liners, etc.

The future of polyethylene film is assured both in pioneering new uses and in taking over some uses for which other films are less well adapted or are higher in price.

W. M. Sorokoff

F. C. Flynn

L. H. Schultz

C. J. Hansen

FOREMEN IN POLYETHYLENE DEPARTMENT

WALTER M. SOROKOFF

Mr. Sorokoff is a former resident of Everett, Massachusetts. After completing his schooling, he was employed by the St. Botolph Holding Company until he entered service with the U. S. Army in 1941.

Walter attended Ohio State University under the Army specialized training program prior to being discharged in 1946. He resumed employment with the St. Botolph Holding Company as garage foreman until 1951 when he joined the Harwid Company of Boston, Massachusetts. He was transferred to Pisgah Forest in November of this year, as Polyethylene Foreman.

Mr. and Mrs. Sorokoff will reside in Sapphire Manor, Apartment P-2.

FRANCIS C. FLYNN

Francis C. Flynn is a native of Cambridge, Massachusetts. He attended public schools in Cambridge prior to joining the U. S. Army in 1942. He saw service in the European Theater and was discharged in December 1945 with rank of Corporal.

Francis was employed by the Harwid Company of Boston from 1946 until his transfer to Pisgah Forest in November of this year as a Polyethylene Foreman.

Mrs. Flynn is the former Phyllis Clark of Au-

burndale, Massachusetts. They have one daughter, Carol Ann. The Flynn's reside in Sapphire Manor, Apartment M-1.

LEROY H. SCHULTZ

Leroy H. Schultz was a former native of Humboldt, Nebraska. He served in the U. S. Army from 1941 until 1946, with two years overseas in the European Theatre.

After Leroy was discharged from the Army, he was employed by the Harwid Company at Boston, Massachusetts. He was transferred to Pisgah Forest in November of this year as Polyethylene Foreman.

Mr. and Mrs. Schultz were married in 1943, have four children, and plan to make their home in Brevard.
