BREVARD COLLEGE, MARCH 16, 1962

NUMBER 11

FLU-DELAYED DANCE SET FOR MARCH 17

LOVE TRIUMPHS AGAIN IN "MARRIAGE AND FAMILY"

Love won again for the second successive year as Mrs. Harris's class in Marriage and the Family made a self survey to list in order of importance the desirable traits in a mate.

Of the thirty-five members of the class, the tender passion placed first with both male and female, but two young men rated this item number ten.

Ambition and being a Christian were next in importance to the girls, while being a Christian and personality tied for second place in the opinion of the men.

With two males, personal appearance was of prime consideration, but most of the men relegated beauty to the eleventh or twelfth place.

Being companionable was listed from third to eighth, but one groom-to-be didn't seem to care particularly whether his life's companion were compatible or not. He preferred intelligence.

The opinion of the girls was widely scattered with regard to economic security, understanding, love of children, and maturity. Personal appearance rated last with the majority of the females participating in the opinion poll.

Adams Granted Leave Of Absence

President McLarty announces that a leave of absence requested by Mr. Nelson Adams of the Department of Music of Brevard College has been granted by the administration. He will be the first faculty member to take advantage of the maximum grant for study made possible by the trustees of the college at their meeting in September, 1961.

Mr. Adams' leave will be spent in fulfilling the residence requirements for a doctorate at Union Theological Seminary, School of Sacred Music in New York City. Preliminary work has been done during the past two summers for this degree.

The doctor of Sacred Music degree offered by Union Seminary is varied in requirements. Mr. Adams' major work will be done in the field of musicology, and it is planned that his dissertation will be done in some field of worship and hymnody as it relates particularly to the Methodist Church's liturgy.

In the applied field, organ will be the major instrument, and during the course of working for the degree, a minimum of four jury recitals must be completed on this instrument. Most course work and examinations in theory, history and languages will be completed during this fifteen month leave of absence. Research, composition and recitals will continue during additional summers of years of study beyond this present leave.

As head of the Music Department at Brevard College during the past seven years, he has been

Alpha Beta Gamma Inducts Seven

Seven Brevard students were inducted into the local chapter of Alpha Beta Gamma during a formal tapping ceremony in assembly.

Robert Loflin, Gilbert Massie, Stanley Roper, Nancy Ting, Frank Caldwell, Robert Edwards, and Leroy Peek are the students that were tapped.

Alpha Beta Gamma is a National honorary society for chemistry students. To be eligible a student must have at least a "B" in chemistry, with no grade lower than a "C".

Phil Barrier is the president of the local chapter, Gene Holland is vice president, and Pat Morrissey is secretary-treasurer.

"Confederates" To Provide Music

After a twist of fate aided by the flu bug, the Mnemosynean and Delphian Societies are at last sponsoring their annual dance. Only this time they'll do away with their usual red paper hats and substitute shamrocks instead.

Because of the one month delay in plans, Valentines just seemed to slip away; but luckily St. Patrick's Day has come around just in time for the big dance which will be Saturday March 17, in the C. C. B. Auditorium.

Miss Diana Brackett, a sophomore from Lawndale, North Carolina, will reign over the St. Patrick's Day Festivities as the 1962 Delphian Sweetheart.

Miss Pat Orr, from Hendersonville, North Carolina, and Miss Barbara Oliver of Winston-Salem, North Carolina, will attend Miss Brackett as the sophomore representatives.

The Freshman Class will be represented by attendants Jeanie Cleary, from Fort Lauderdale, Florida, and Sara Moores of Winter Park, Florida.

The "Confederates", a dance band from Greenville, South Carolina, will provide the music for the event. Festivities are due to begin at 8:00 p.m. The dance is to be semi-formal.

LOST AND FOUND

The following articles have been turned in to Miss Montgomery at the receptionist's desk in the C. C. B.: ladies wrist-watch, lapel pin, bracelet, glasses, shoe bow, earring, necklace chain, jacket, and assorted gloves and scarves. Also, mens sweaters, jackets, and raincoats have been turned in to the lost and found desk.

BUTTERWORTH & COMPANY PRESENT "NEW PRODUCT"

Dear Students:

This is to inform you that the Butterworth Manufacturing Company, a subsidiary of Brevard College, has recently presented to the public a new product. The vital statistics covering this item are:

Name of Product: James Frederick Butterworth
Weight: 8 lbs. 12 ozs.
Length: 20½ inches
Date first put on the mar-

ket: March 2, 1962

Industrious Engineers:
Chuck and Rubie Butterworth

Remarks:

Volume: Loud!

Uncovery rate: Rapid!

Intake vs. Output: Equal!

The stockholders invite you to drop around to view this remarkable machine and to give your unbiased opinion as to its potentialities, which are felt to be unlimited.

Bobbie Leonard, Youth Missionary, To Speak In Chapel

Miss Barbara Leonard, Methodist missionary, will visit Brevard College Campus on March 19 and 20, and is scheduled to speak in chapel on Monday, March 19.

Bobbie has recently returned from a special term period of service in San Mateo, Philippines, where she has been youth director of the Cagayan Valley. Through her work with young people and her special work in teaching music, she was involved in the total life of the community.

Miss Leonard received her A. B. Degree from Pfeiffer College in 1958. She majored in Christian education and minored in music. She participated in band and chorus, science club, and was on the staff of the school newspaper. She was active in the Methodist Student Movement and during the summers participated in intergroup relations projects.

Bobbie is visiting our campus to discuss the church in the Philippines today, particularly as it relates to the student Christian movement, and to meet students who are interested in exploring further the possibilities of service with the church in frontier situations in the United States and overseas.

Big Sisters Honor Their Charges At Annual "Coffees"

Thursday evening, March 1, Misses Joyce Mabry, Juanita McKee, and Elizabeth Jenkins entertained at the first of a series of "Big Sister" coffees. The little sisters of each hostess were invited, as well as various faculty members.

The President's home, at which each coffee will eventually be held, was softly decorated in a spring theme. Freshly cut flowers and warm yellow candles were attractively arranged on the refreshment table at which Mrs. Dellinger served coffee.

The Big Sisters, under the sponsorship of Mrs. Dellinger and with the aid of Mrs. Emmet McLarty, are giving these coffees in honor of their little sisters. Eventually, each freshman girl on the campus will be asked to attend one of these occasions, given by her Big Sister.

BULLETIN

With Brevard's new \$25,000 track as a lure, the North Carolina High School Athletic Association for the first time in history has scheduled one of its sectional track and field meets in Western North Carolina. L. W. (Chick) Martin, Brevard College athletic director, has been appointed chairman of the meet's track committee.

MR. NELSON ADAMS

SNOW IN MARCH? Impossible! Yet, from the above picture, one would be inclined to believe that the soft, white stuff the students are molding in the shape of a snowman is really snow. Officially, Brevard recorded a total of eight inches.
