

Tornadoes Down Gainesville For Fourth Win By 82-58

TORNADO WARNING!

By JOHN COLLINS

Farewell to a semester, happy or sad, it's lost forever; and even though you may applaud its end, some of your finest memories are rooted here. I remember the freshmen when I first met them, they were exactly as I was, wondering what this whole thing was going to be like. I believe they felt as if they were going to be overshadowed by an equally populated sophomore class. But when it turned out that we were about half their percentage, they realized that they had to be the motivating force in this institution.

As I think back over the semester, I've met many people, some of them I liked, others I didn't; but no matter what the experience, I have no regrets. This has been quite a semester for me and probably an interesting one for you; and in spite of what all has happened this year, I'll always want to live these days again.

But think about something when you say, "See you next semester," think about it! Because you may never see them again. That boy in math may be doing his figuring in a rice paddy, while that girl you knew so well may just fade away and you catch yourself saying, "Whatever happened to her." You'll never know; people are lost just like time; and when you wish they were around, it's too late. Just be glad nothing can take your memories; it's the only thing that lasts forever. Have a Merry Christmas and thanks for reading.

BOB WOLF

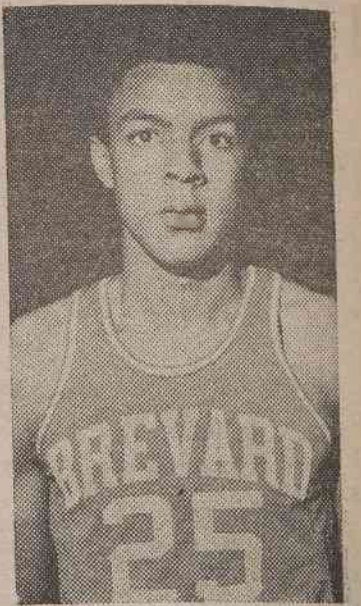

... High Scorer

Brevard College's Tornadoes used an effective pressing man-to-man defense and superior rebounding strength to roll to an 82-58 triumph Tuesday night over Gainesville College of Gainesville, Ga.

The Tornadoes outrebounded Gainesville, 48-29, despite Gainesville height advantage. The Brevard defense forced 15 turnovers.

Five players scored in double figures for the winners, with Bob Wolfe's 19 leading the attack. Chris Black had 25 for the losers.

Brevard hit on 38.4 per cent of its field goals and 69.9 from the line. The victory was the team's fourth against three set-backs. The Tornadoes go on final exam and Christmas break before returning to the hardwood, Jan. 5, at Montreat.

CHARLES HUNT

Charles Hunt

Named Co-Captain

Charles Hunt, a sophomore member of the Brevard College basketball squad, has been named co-captain of the 1969-70 Tornadoes in a vote taken by team members.

Hunt, a business administration major at the local college, was a star athlete at Brevard Senior High School, and started at a forward slot for coach Chick Martin's Brevard team last season.

During the 1969-70 season, Coach Martin will use the 6-2, 163 lb. defensive star at both forward and guard. He is the son of Cornelius Hunt of 76 Oakdale Street, Brevard.

College Editors Polled Concerning Space Program

In the wake of Apollo 11 yet previous to the Apollo 12 launch, slated to place the second team of U.S.A. Astronauts on the lunar surface, ACP conducted a poll of newspaper editors from 200 colleges across the nation.

When the editors were asked if Federal tax money should be spent to further expand the space program, 65% replied yes to the continued funding, and 35% replied no. Approximately 65% indicated that the most important reason for furthering our space program is to expand man's knowledge of the universe in hopes of applying this knowledge to life here on

earth. Those who replied no said they would rather see the money spent on poverty programs, welfare, and education.

When asked if the U.S. should abandon its manned space program in favor of a primarily un-manned space program similar to the USSR's, 90% indicated, no. Most of these editors claimed that "man could never be replaced by a computer," and "in the face of over-population, experience gained in providing a controlled environment for man's extended space journeys, could lead to easier colonization of the planets not directly suited to human life."
