THE 1970 CHRISTMAS SEA-SON at Brevard College officially began last Friday with the lighting of

the campus Christmas tree. Music was furnished by the group pictured above. (Photo By Bill Boggs) ed above.

There is a special feeling about our campus as Christmas draws near. The Christmas trees with their bright lights, the program of special music, and a general atmosphere of joy and goodwill prevails at such a time. I would like to extend Christmas greetings and words of good wishes to each member of our student body and the entire Brevard College community. I would also like to express appreciation for each one who has helped to make this a very good semester from almost every standpoint. work together, we can make Brevard an even

serious business of taking final exams. Beyond the formal exams, it is also appropriate that you examine yourself to see if you are doing your part to receive the very most from your educational experience at Brevard. It is quite easy to waste a great opportunity. It is easy to waste life itself. As we near the end of a semester and a calendar year, it is my hope that each student will set for himself the goal of excellence — excellence in academic achievement and excellence in personal growth. A life worth living - and a worthwhile life should be our goal.

to each one!!
