BC basketball is back and it is going to be HOT. The men's and women's basketball teams are set for another exciting season. Both teams' first regular season games are on Nov. 10. The men begin their season in Atlanta with the Atlanta Classic and the ladies start theirs at Denmark Tech in Denmark, S.C.

The men had a very successful year last year, with a 20-11 record. Last year's performance gives Coach Doug Rogers good reason to be optimistic. "I feel real good about this season," Rogers said. "We have five starters returning, which should give us enough leadership and we also have a very good young group of freshman. Overall, this year's team is very talented."

The guys will face some tougher competition this year than in past years. "We play in the toughest junior college conference in the United States," said Rogers. "The competition will be much greater, which means that the team will have to work even harder to do well."

The team does have a lot of potential, but one of the keys to the season is how quickly they will come together as a team. "With a lot of hard work and leadership, we can do well," said Rogers.

What can the fans look forward to this season? "Look for us to run the ball up and down the court, we will have an exciting team this year," said Rogers.

The women's team is also looking forward to a great season. The team has five sophomores returning and nine freshmen joining the club. All 14 players will have basically equal playing time this year as Coach Tom Radford plans to platoon the players.

"We have a very exciting team," said Radford, "All 14 players are very good. All of them have strengths and what we want to do is to cover up their weaknesses."

Like the men, the women have an extremely tough schedule. "We have four scrimages against four-year schools and during the regular season, we play some nationally-ranked schools," said Radford.

According to Coach Radford, the fans can expect some very exciting and aggressive basketball. "We will be running, pressing, and pushing the ball up the court — in other words, a very fast-paced game." Radford also added that, "we have three key words in our practices, Anticipate, Attack, Dictate. We must anticipate on defense and react to it, attack on both offense and defense, and dictate to the other team what they can do."
