# Lost.

(How most kids feel about preparing for college.)

Without the help of an adult, it may be confusing for students to find their way to college. If you know a student with dreams of a higher education, do your part and help lead the way. Learn how at...

# 12 IS NOT THE NEW 21

Many children begin drinking as early as age 12. That's two years before they've tried geometry. Research indicates that children are less likely to drink when their parents are involved in their lives and when they report feeling close to their parents. So next time you complain about how fast they're growing up, consider that it might be in your power to slow them down.
